

**Q. 1**  
Mark one answer

You have to park on the road in fog. You should

- leave sidelights on
- leave dipped headlights and fog lights on
- leave dipped headlights on
- leave main beam headlights on

**Q. 2**  
Mark one answer

Which of these vehicles is LEAST likely to be affected by crosswinds?

- Cyclists
- Motorcyclists
- High-sided vehicles
- Cars

**Q. 3**  
Mark one answer

A candidate who has failed their driving test wishes to appeal against the test not being properly conducted. They should initially be advised to

- write a letter to the supervising examiner
- return to the driving test centre and ask to see the senior driving examiner
- examine the guidance notes on the reverse side of the driving test report
- write to the chief executive

**Q. 4**  
Mark one answer

Before starting a journey in freezing weather you should clear ice and snow from your vehicle's

- aerial
- windows
- bumper
- roof

**Q. 5**  
Mark one answer

You are allowed to stop on a motorway when you

- need to walk and get fresh air
- wish to pick up hitch-hikers
- are told to do so by flashing red lights
- need to use a mobile telephone

**Q. 6**  
Mark one answer

Daytime visibility is poor but not seriously reduced. You should switch on

- headlights and fog lights
- front fog lights
- dipped headlights
- rear fog lights

**Q. 7**  
Mark one answer

Pressing the clutch pedal down or rolling in neutral for too long while driving will

- use more fuel
- cause the engine to overheat
- reduce your control
- improve tyre wear

**Q. 8**  
Mark one answer

You have broken down on a busy two-way road. How far behind should you place a red reflective triangle?

- 45 metres (147 feet)
- 75 metres (245 feet)
- 100 metres (328 feet)
- 150 metres (490 feet)

**Q. 9**  
Mark one answer

What do you need before you can drive legally?

- Breakdown cover
- A vehicle handbook
- Proof of your identity
- Proper insurance cover

**Q. 10**  
Mark one answer

Where you see street lights but no speed limit signs the limit is usually

- 30 mph
- 40 mph
- 50 mph
- 60 mph

**Q. 11**  
Mark one answer

You are approaching traffic lights that have been on green for some time. You should

- accelerate hard
- maintain your speed
- be ready to stop
- brake hard

**Q. 12**  
Mark one answer

You are reversing a car in a straight line. You

- must hold the steering wheel with both hands
- may steer with one hand if this helps
- must keep your hands at the 'ten to two' position
- must keep your hands at the 'quarter to three' position

**Q. 13**  
Mark one answer

You are following a large lorry on a wet road. Spray makes it difficult to see. You should

- drop back until you can see better
- put your headlights on full beam
- keep close to the lorry, away from the spray
- speed up and overtake quickly

**Q. 14**  
Mark one answer

You have just passed yellow flashing warning lights. What hazard would you expect to see next?

- A level crossing with no barrier
- An ambulance station
- A school crossing patrol
- An opening bridge

**Q. 15**  
Mark one answer

The left-hand lane of a motorway should be used for

- breakdowns and emergencies only
- overtaking slower traffic in the other lanes
- slow vehicles only
- normal driving

**Q. 16**  
Mark one answer

You should always look around before moving off

- to check that there is no one in the 'blind spot'
- because it is expected
- to avoid failing their driving test
- or use their mirror(s) instead

**Q. 17**  
Mark one answer

Your vehicle is parked on the road at night. When must you use sidelights?

- When there are continuous white lines in the middle of the road
- Where the speed limit exceeds 30 mph
- Where you are facing oncoming traffic
- Where you are near a bus stop

**Q. 18**  
Mark one answer

A motor car may be parked at night without lights on the nearside of the road parallel to the kerb so long as it is at least 10 metres (32 feet) from a road junction and provided the road is

- subject to a 30 mph limit
- subject to a 40 mph limit
- not a dual carriageway
- not on a bus route

**Q. 20**  
Mark one answer

Motorcyclists will often look round over their right shoulder just before turning right. This is because

- they need to listen for following traffic
- motorcycles do not have mirrors
- looking around helps them balance as they turn
- they need to check for traffic in their blind area

**Q. 21**  
Mark one answer

You are following a car driven by an elderly driver. You should

- expect the driver to drive badly
- flash your lights and overtake
- be aware that the driver's reactions may not be as fast as yours
- stay very close behind but be careful

**Q. 29***Mark one answer*

You are travelling behind a moped. You want to turn left just ahead. You should

- overtake the moped before the junction
- pull alongside the moped and stay level until just before the junction
- sound your horn as a warning and pull in front of the moped
- stay behind until the moped has passed the junction

**Q. 30***Mark one answer*

As a driver you find that your eyesight has become very poor. Your optician says they cannot help you. The law says that you should tell

- the DVLA
- your own doctor
- the local police station
- another optician

**Q. 31***Mark one answer*

You are driving along a road that has a cycle lane. The lane is marked by a solid white line. This means that during its period of operation

- the lane may be used for parking your car
- you may drive in that lane at any time
- the lane may be used when necessary
- you must not drive in that lane

**Q. 24***Mark one answer*

Traffic calming measures are used to

- stop road rage
- help overtaking
- slow traffic down
- help parking

**Q. 25***Mark one answer*

You may park on the verge or footpath

- when an information sign advises it
- to load and unload
- if it will ease the traffic flow
- to pick up passengers

**Q. 26***Mark one answer*

Skidding is mainly caused by

- the weather
- the driver
- the vehicle
- the road

**Q. 27***Mark one answer*

When you are following a large vehicle around a slight left-hand bend the best view of the road ahead can be obtained by keeping

- towards the centre of the road
- to the centre of their half of the road
- well to the nearside of the road
- close to the rear of the vehicle

**Q. 33***Mark one answer*

You see a horse rider as you approach a roundabout. They are signalling right but keeping well to the left. You should

- proceed as normal
- keep close to them
- cut in front of them
- stay well back

**Q. 34***Mark one answer*

A learner driver may be supervised by

- someone who is 20 years old who has held a licence in that category of vehicle for at least 3 years
- someone over 21 years old who has held a licence in that category of vehicle for at least 3 years
- someone over 21 years old who has held a licence in that category of vehicle for at least 1 year
- someone over 25 years old who has held a licence in that category of vehicle for at least 1 year

**Q. 36***Mark one answer*

The cost of your insurance may be reduced if you

- are over 25 years old
- are under 25 years old
- do not wear glasses
- pass the driving test first time

**Q. 37***Mark one answer*

When considering the care of tyres, higher pressures are an advantage when driving

- at high speeds over long distances
- 4-wheel drive vehicles
- a car fitted with cross-ply tyres
- on very rough roads

**Q. 38***Mark one answer*

You can park on the right-hand side of a road at night

- in a one-way street
- with your sidelights on
- more than 10 metres (32 feet) from a junction
- under a lamp-post

**Q. 39***Mark one answer*

Anyone who considers that their driving test was not conducted in accordance with the regulations

- may appeal to the Magistrates' Court in England and Wales or the Sheriffs Court in Scotland
- has no right of appeal, other than discussing the matter with the examiner concerned
- may appeal to the Area Manager, dealing with that particular driving test centre
- may appeal to the Chief Executive of the Driving Standards Agency

**Q. 41***Mark one answer*

Coasting the vehicle

- improves the drivers control
- makes steering easier
- reduces the drivers control
- uses more fuel

**Q. 42**  
Mark one answer

What advice should you give to a driver who has had a few alcoholic drinks at a party?

- Have a strong cup of coffee and then drive home
- Drive home carefully and slowly
- Go home by public transport
- Wait a short while and then drive home

**Q. 43**  
Mark one answer

You are approaching a cyclist who is giving a right turn signal. You should

- overtake before the cyclist gets to the junction.
- flash your headlights at the cyclist
- slow down and allow the cyclist to turn
- squeeze past the cyclist on the left-hand side

**Q. 44**  
Mark one answer

Tactile paving at pedestrian crossings is to help

- people pushing prams
- blind or partially sighted people
- drivers decide whether to stop or not
- people with hearing difficulties

**Q. 45**  
Mark one answer

Your vehicle is fitted with anti-lock brakes. To stop quickly in an emergency you should

- brake firmly and pump the brake pedal on and off
- brake rapidly and firmly without releasing the brake pedal
- brake gently and pump the brake pedal on and off
- brake rapidly once, and immediately release the brake pedal

**Q. 46**  
Mark one answer

You are driving on the motorway in windy conditions. When passing high-sided vehicles you should

- increase your speed
- be wary of a sudden gust
- drive alongside very closely
- expect normal conditions

**Q. 47**  
Mark one answer

The overall stopping distance at 70 mph is

- 21 metres (70 feet)
- 50 metres (164 feet)
- 75 metres (245 feet)
- 96 metres (315 feet)

**Q. 48**  
Mark one answer

When parking facing uphill a driver should apply the handbrake and select

- reverse gear
- first gear
- neutral
- fourth gear

**Q. 49**  
Mark one answer

When starting on a downhill gradient, pupils should be taught to use

- the lowest available gear
- the appropriate gear for the slope
- the highest available gear
- a lower gear than normal

**Q. 51**  
Mark one answer

The publication containing advice on traffic regulations for all road users is

- The official driving test
- Driving the essential skills
- Roadcraft
- The Highway Code

**Q. 52**  
Mark one answer

Provisional licence holders, must not drive a motor car

- at more than 50 mph
- on their own
- with passengers in the rear seats
- under the age of 18 years of age at night

**Q. 53**  
Mark one answer

When changing to a higher gear a driver should

- release the pressure on the accelerator then declutch
- depress the clutch and at the same time release the pressure on the accelerator
- declutch but keep the accelerator pressure constant
- depress the clutch and at the same time increase the pressure on the accelerator

**Q. 54**  
Mark one answer

Your car starts to skid. The rear wheels are sliding to the left. You should

- steer to the left
- steer to the right
- not steer at all
- apply your handbrake

**Q. 55**  
Mark one answer

Anti-lock brakes can greatly assist with

- a higher cruising speed
- steering control when braking
- control when accelerating
- motorway driving

**Q. 56**  
Mark one answer

On a two-lane motorway a large goods vehicle (LGV) is taking a long time to overtake you. You should

- slow down and let the LGV pass
- maintain a steady speed and let the LGV decide on the best action to take
- increase speed slowly so that the LGV can move into the left-hand lane behind you
- slow down and flash the headlights

**Q. 57**  
Mark one answer

On a road where trams operate, which of these vehicles will be most at risk from the tram rails?

- Cars
- Cycles
- Buses
- Lorries

**Q. 58**  
Mark one answer

To help a pupil attain a good standard of driving the amount of verbal instruction should be

- maintained at the same level regardless of competence
- increased as the test approaches
- reduced as their competence increases
- stopped when they reach test standard

**Q. 60**  
Mark one answer

To help protect the environment you should NOT

- remove your roof rack when unloaded
- use your car for very short journeys
- walk, cycle, or use public transport
- empty the boot of unnecessary weight

**Q. 61**  
Mark one answer

To answer a call on your mobile phone while travelling you should

- reduce your speed wherever you are
- stop in a proper and convenient place
- keep the call to a minimum
- slow down and allow others to overtake

**Q. 62**  
Mark one answer

You are overtaking a car at night. You must be sure that

- you flash your headlights before overtaking
- you select a higher gear
- you have switched your lights to full beam before overtaking
- you do not dazzle other road users

**Q. 63**  
Mark one answer

- Front fog lights should be used
- when visibility is reduced to 100 metres (328 feet)
  - as a warning to oncoming traffic
  - when driving during the hours of darkness
  - in any conditions and at any time

**Q. 64**  
Mark one answer

- Excessive wear of the central area of the treads of car tyres indicates generally that the tyres have been used
- under-inflated
  - with faulty shock absorbers
  - over-inflated
  - out of alignment

**Q. 65**  
Mark one answer

- Which of these must NOT use motorways?
- Learner car drivers
  - Motorcycles over 125cc
  - Double-decker buses
  - Vehicles towing trailers

**Q. 66**  
Mark one answer

- Red reflectors at the side of the road indicate
- the left-hand edge of the road
  - the right-hand edge of the road
  - a concealed level crossing ahead
  - a humpback bridge

**Q. 67**  
Mark one answer

- On a three-lane motorway a driver should use the right-hand lane only for
- normal driving
  - overtaking
  - driving at high speed
  - towing a trailer

**Q. 68**  
Mark one answer

- Why is it particularly important to carry out a check on your vehicle before making a long motorway journey?
- You will have to do more harsh braking on motorways
  - Motorway service stations do not deal with breakdowns
  - The road surface will wear down the tyres faster
  - Continuous high speeds may increase the risk of your vehicle breaking down

**Q. 69**  
Mark one answer

- You need to reverse park between two vehicles. As a guideline the minimum gap between the two vehicles should be
- One and a half times the length of your car
  - One a half times the length of the object car
  - two times the length of your car
  - two times the length of the object car

**Q. 70**  
Mark one answer

- The flashing amber light at a pelican controlled crossing means
- you must give way to pedestrians waiting to cross
  - you must stop and wait for the green light
  - you must give way to pedestrians on the crossing
  - you may always proceed

**Q. 71**  
Mark one answer

- You are driving down a steep hill. Why could keeping the clutch down or selecting neutral for too long be dangerous?
- Fuel consumption will be higher
  - Your vehicle will pick up speed
  - It will damage the engine
  - It will wear tyres out more quickly

**Q. 72**  
Mark one answer

- You are travelling at 50 mph on a good, dry road. What is your shortest overall stopping distance?
- 36 metres (120 feet)
  - 53 metres (175 feet)
  - 75 metres (245 feet)
  - 96 metres (315 feet)

**Q. 73**  
Mark one answer

- At traffic lights, amber on its own means
- prepare to go
  - go if the way is clear
  - go if no pedestrians are crossing
  - stop at the stop line

**Q. 74**  
Mark one answer

- As a driver what does the term 'Blind Spot' mean?
- An area covered by your right-hand mirror
  - An area not covered by your headlamps
  - An area covered by your left-hand mirror
  - An area not seen in your mirrors

**Q. 75**  
Mark one answer

- You are driving on a motorway. By mistake, you go passed the exit that you wanted to take. You should
- carefully reverse on the hard shoulder
  - carry on to the next exit
  - carefully reverse in the left-hand lane
  - make a U-turn at the next gap in the central reservation

**Q. 76**  
Mark one answer

- When may you use hazard warning lights when driving?
- Instead of sounding the horn in a built-up area between 11.30 pm and 7 am
  - On a motorway or unrestricted dual carriageway, to warn of a hazard ahead
  - On rural routes, after a warning sign of animals
  - On the approach to toucan crossings where cyclists are waiting to cross

**Q. 77**  
Mark one answer

- You are driving in a built-up area. You approach a speed hump. You should
- move across to the left-hand side of the road
  - wait for any pedestrians to cross
  - stop and check both pavements
  - slow your vehicle right down

**Q. 78**  
Mark one answer

- 'Driving the essential skills' advises that if your journey makes you feel drowsy whilst driving you should
- stop on the hard shoulder for a sleep
  - speed up to arrive at your destination sooner
  - slow down and let other drivers overtake
  - open a window and drive to the next service area

**Q. 79**  
Mark one answer

- How should you use the emergency telephone on a motorway?
- Stay close to the carriageway
  - Face the oncoming traffic
  - Keep your back to the traffic
  - Stand on the hard shoulder

**Q. 80**  
Mark one answer

- A yellow sign on the rear of a bus which shows children walking indicates
- a vehicle broken down
  - a school bus
  - an ice cream van
  - a private ambulance

**Q. 81**  
Mark one answer

- You intend slowing down to give way to pedestrians at a zebra crossing. An arm signal could be useful because
- other road users can see the arm signal and act accordingly
  - it gives the pedestrians immediate priority
  - you must tell other drivers to stop
  - this will ensure that all following traffic will stop

**Q. 82**  
Mark one answer

- To adjust the interior rear view mirror correctly, you should move it until you get the best possible view through the back window especially to the
- nearside
  - offside
  - centre
  - 'blind spot'

**Q. 83**  
Mark one answer

- Your mobile phone rings while you are on the motorway. Before answering you should
- reduce your speed to 50 mph
  - pull up on the hard shoulder
  - move into the left-hand lane
  - stop in a safe place

**Q. 84**

*Mark on answer*

To avoid spillage after refuelling, you should make sure that

- a. your tank is only  $\frac{3}{4}$  full
- b. you have used a locking filler cap
- c. you check your fuel gauge is working
- d. your filler cap is securely fastened

**Q. 85**

*Mark one answer*

You are waiting at a level crossing. A train has passed but the lights keep flashing. You must

- a. carry on waiting
- b. phone the signal operator
- c. edge over the stop line and look for trains
- d. park and investigate

**Q. 86**

*Mark one answer*

You see two elderly pedestrians about to cross the road ahead. You should

- a. expect them to wait for you to pass
- b. speed up to get past them quickly
- c. stop and wave them across the road
- d. be careful, they may misjudge your speed

**Q. 87**

*Mark one answer*

You arrive at the scene of an accident. There has been an engine fire and someone's hands and arms have been burnt. You should NOT

- a. douse the burn thoroughly with cool liquid
- b. lay the casualty down
- c. remove anything sticking to the burn
- d. reassure them constantly

**Q. 89**

*Mark one answer*

When being followed by an ambulance showing a flashing blue beacon you should

- a. pull over as soon as safely possible to let it pass
- b. accelerate hard to get away from it
- c. maintain your speed and course
- d. brake harshly and immediately stop in the road

**Q. 90**

*Mark one answer*

When driving, the maximum proportion of alcohol per each 100 ml of breath must not exceed

- a. 35 microgrammes
- b. 50 microgrammes
- c. 80 microgrammes
- d. 100 microgrammes

**Q. 91**

*Mark one answer*

If you are feeling tired it is best to stop as soon as you can. Until then you should

- a. increase your speed to find a stopping place quickly
- b. ensure a supply of fresh air
- c. gently tap the steering wheel
- d. keep changing speed to improve concentration

**Q. 92**

*Mark one answer*

When moving forward slowly in heavy traffic, why should junctions on the left be kept clear?

- a. To allow vehicles to enter and emerge
- b. To allow the buses to reverse
- c. To allow vehicles to make a U-turn
- d. To allow vehicles to park

**Q. 93**

*Mark one answer*

When approaching a left-hand bend with poor vision you should keep

- a. to the centre of your lane
- b. well into the left
- c. out to the centre line
- d. close to the vehicle in front

**Q. 94**

*Mark one answer*

You are waiting to come out of a side road. Why should you watch carefully for motorcycles?

- a. Motorcycles are usually faster than cars
- b. Police patrols often use motorcycles
- c. Motorcycles are small and hard to see
- d. Motorcycles have right of way

**Q. 95**

*Mark one answer*

You are in a one-way street and want to turn right. You should position yourself

- a. in the right-hand lane
- b. in the left-hand lane
- c. in either lane, depending on the traffic
- d. just left of the centre line

**Q. 96**

*Mark one answer*

A driver pulls out of a side road in front of you. You have to brake hard. You should

- a. ignore the error and stay calm
- b. flash your lights to show your annoyance
- c. sound your horn to show annoyance
- d. overtake as soon as possible

**Q. 97**

*Mark one answer*

You are parking a vehicle near a junction at night without lights. It should be positioned at least

- a. 10 metres (32 feet) from the junction
- b. 15 metres (50 feet) from the junction
- c. 20 metres (66 feet) from the junction
- d. 25 metres (82 feet) from the junction

**Q. 98**

*Mark one answer*

In windy conditions you need to take extra care when

- a. using the brakes
- b. making a hill start
- c. turning into a narrow road
- d. passing pedal cyclists

**Q. 99**

*Mark one answer*

You are on a good, dry road surface and your vehicle has good brakes and tyres. What is the overall stopping distance at 40 mph?

- a. 23 metres (75 feet)
- b. 36 metres (120 feet)
- c. 53 metres (175 feet)
- d. 96 metres (315 feet)

**Q. 100**

*Mark one answer*

Front fog lights may be used ONLY if

- a. visibility is seriously reduced
- b. they are fitted above the bumper
- c. they are not as bright as the headlights
- d. an audible warning device is used

**Q. 101**

*Mark one answer*

You are on a motorway. You feel tired. You should

- a. carry on but go slowly
- b. leave the motorway at the next exit
- c. complete your journey as quickly as possible
- d. stop on the hard shoulder

**Q. 102**

*Mark one answer*

The minimum distance that an examiner would ask a candidate to read an old style number plate (letters and figures 79.4mm (three and one eighth inches high)) is

- a. 20.5 metres (67 feet)
- b. 22.7 metres (75 feet)
- c. 18.0 metres (60 feet)
- d. 25.0 metres (82 feet)

**Q. 103**

*Mark one answer*

You are on a motorway. A large box falls onto the road from a lorry. The lorry does not stop. You should

- a. go to the next emergency telephone and inform the police
- b. catch up with the lorry and try to get the driver's attention
- c. stop close to the box until the police arrive
- d. pull over to the hard shoulder, then remove the box

**Q. 104**

*Mark one answer*

You are driving in fog. Why should you keep well back from the vehicle in front?

- a. In case it changes direction suddenly
- b. In case its fog lights dazzle you
- c. In case it stops suddenly
- d. In case its brake lights dazzle you

**Q. 105***Mark one answer*

You are following another vehicle, in good weather conditions at 70 mph. The minimum separation distance that should be allowed is

- 2 seconds
- 3 seconds
- 4 seconds
- 10 seconds

**Q. 106***Mark one answer*

When traffic lights are out of order, who has priority?

- Traffic going straight on
- Traffic turning right
- Nobody
- Traffic turning left

**Q. 107***Mark one answer*

You are driving in town. There is a bus at the bus stop on the other side of the road. Why should you be careful?

- The bus may have broken down
- Pedestrians may come from behind the bus
- The bus may move off suddenly
- The bus may remain stationary

**Q. 108***Mark one answer*

You are approaching a zebra crossing. You should

- prepare to slow down and stop
- stop and wave the pedestrians across
- speed up and pass by quickly
- drive on unless the pedestrians step out

**Q. 109***Mark one answer*

You are driving a car fitted with automatic transmission. When you pull up you are advised to

- keep your foot firmly on the footbrake
- put the selector lever in the 'P' position
- apply the handbrake fully
- put the selector in the 'N' position

**Q. 110***Mark one answer*

The footbrake on your car starts to feel spongy. This indicates

- the wrong brake pads are fitted
- there is air in the hydraulic system
- there are worn brake pads
- there are worn brake discs

**Q. 111***Mark one answer*

How should you overtake horse riders?

- Drive up close and overtake as soon as possible
- Speed is not important but allow plenty of room
- Use your horn just once to warn them
- Drive slowly and leave plenty of room

**Q. 112***Mark one answer*

A driver's behaviour has upset you. It may help if you

- stop and take a break
- shout abusive language
- gesture to them with your hand
- follow their car, flashing the headlights

**Q. 113***Mark one answer*

When parking your vehicle at night on a road with a 30 mph limit, your distance from a junction should be at least

- 5 metres (16 feet)
- 10 metres (32 feet)
- 15 metres (49 feet)
- 25 metres (82 feet)

**Q. 114***Mark one answer*

You arrive at the scene of an accident and find a casualty in a vehicle. No further danger is threatened. You should

- leave the casualty in the vehicle in case they are seriously injured
- remove the casualty with care and place in the recovery position
- get the casualty clear of the vehicle and away from the road
- keep the casualty warm and offer them a warm drink

**Q. 115***Mark one answer*

The road is wet. Why might a motorcyclist steer round drain covers on a bend?

- To avoid puncturing the tyres on the edge of the drain covers
- To prevent the motorcycle sliding on the metal drain covers
- To help judge the bend using the drain covers as marker points
- To avoid splashing pedestrians on the pavement

**Q. 116***Mark one answer*

You are waiting in a side road to cross a dual carriageway with a wide central gap. The traffic flow is light. You should

- wait for the first carriageway to clear, drive to the central gap and again wait, if necessary, before driving across
- wait for both carriageways to clear before driving straight across
- turn left on the first carriageway, drive to the next gap, and turn right
- block the first carriageway and wait for someone from the left to give way

**Q. 118***Mark one answer*

Vehicles fitted with anti-lock brakes

- are impossible to skid
- can be steered while you are braking
- accelerate much faster
- are not fitted with a handbrake

**Q. 119***Mark one answer*

You are parking on a two-way road at night. The speed limit is 40 mph. You should park on the

- left with sidelights on
- left with no lights on
- right with sidelights on
- right with dipped headlights on

**Q. 120***Mark one answer*

There are flashing amber lights under a school warning sign. What action should you take?

- Reduce speed until you are clear of the area
- Keep up your speed and sound the horn
- Increase your speed to clear the area quickly
- Wait at the lights until they change to green

**Q. 121***Mark one answer*

You should use the 'Two-Second Rule'

- before restarting the engine after it has stalled
- to keep a safe gap from the vehicle in front
- before using the 'Mirror-Signal-Manoeuvre' routine
- when emerging on wet roads

**Q. 122***Mark one answer*

How would you react to drivers who appear to be inexperienced?

- Sound your horn to warn them of your presence
- Be patient and prepare for them to react more slowly
- Flash your headlights to indicate that it is safe for them to proceed
- Overtake them as soon as possible

**Q. 123***Mark one answer*

A one-way street joins a main road and there is a 'Give Way' sign. The road markings at the junction would be

- a single broken white line across the whole width of the minor road
- double broken white lines across the left-hand side of the minor road
- double broken white lines across the whole width of the minor road
- a single white line across the whole width of the minor road

**Q. 125***Mark one answer*

By law a person driving must have a breathe of alcohol level per 100 millilitres, which is less than

- a. 20 microgrammes
- b. 25 microgrammes
- c. 30 microgrammes
- d. 35 microgrammes

**Q. 126***Mark one answer*

What is the purpose of a car's differential when cornering? It allows the

- a. driven wheels to turn at the same speed
- b. outer wheel to turn slower than the inner wheel
- c. inner wheel to turn slower than the outer wheel
- d. even distribution of braking

**Q. 127***Mark one answer*

You are travelling along the left lane of a three-lane motorway. Traffic is joining from a slip road. You should

- a. race the other vehicles
- b. move to another lane
- c. maintain a steady speed
- d. switch on your hazard flashers

**Q. 128***Mark one answer*

In an area where supertrams are in operation the diamond shaped signs only give instructions to

- a. pedestrians
- b. car drivers
- c. tram drivers
- d. cyclists

**Q. 129***Mark one answer*

An automatic choke that has not disengaged will make

- a. the vehicle more difficult to control
- b. the vehicle easier to control
- c. no difference to the control of the vehicle
- d. the vehicle more likely to stall

**Q. 130***Mark one answer*

When reversing in a straight line

- a. both hands must always be used
- b. one hand can be used at the 12 o'clock position
- c. one hand can be used at the 6 o'clock position
- d. both hands should be in the 10 to 2 position

**Q. 131***Mark one answer*

A cover note is a document issued before you receive your

- a. driving licence
- b. insurance certificate
- c. registration document
- d. MOT certificate

**Q. 132***Mark one answer*

Catalytic converters are fitted to make the

- a. engine produce more power
- b. exhaust system easier to replace
- c. engine run quietly
- d. exhaust fumes cleaner

**Q. 133***Mark one answer*

You should adjust head restraints so that they give maximum protection to the

- a. neck
- b. head
- c. head and neck
- d. back

**Q. 136***Mark one answer*

Turning the steering wheel while your car is stationary can cause damage to the

- a. gearbox
- b. engine
- c. brakes
- d. steering

**Q. 137***Mark one answer*

The minimum age to drive a car by a person receiving the higher rate of disability allowance is

- a. 15 years
- b. 16 years
- c. 17 years
- d. 21 years

**Q. 138***Mark one answer*

If the ignition light in a car comes on during a journey it would warn the driver that the

- a. engine is overheating
- b. battery needs charging
- c. charging system is faulty
- d. oil level may be low

**Q. 139***Mark one answer*

When you are overtaking a cyclist you should leave as much room as you would give to a car. What is the main reason for this?

- a. The cyclist might change lanes
- b. The cyclist might get off the bike
- c. The cyclist might swerve
- d. The cyclist might have to make a right turn

**Q. 140***Mark one answer*

If the level of fluid in the brake fluid reservoir falls too low, this could result in

- a. complete loss of braking on the footbrake
- b. serious brake fade on hills
- c. some loss of braking on the handbrake
- d. complete loss of braking on the handbrake

**Q. 141***Mark one answer*

You are driving along in busy traffic, closely followed by another vehicle. You should

- a. slow down to create a shorter overall stopping distance between the vehicles
- b. increase the distance between your vehicle and the one in front
- c. continue at the same speed and ignore the following traffic
- d. close up to the vehicle in front of you to leave more space for the following vehicle

**Q. 142***Mark one answer*

Why should you allow extra room when overtaking a motorcyclist on a windy day?

- a. The rider may turn off suddenly to get out of the wind
- b. The rider may be blown across in front of you
- c. The rider may stop suddenly
- d. The rider may be travelling faster than normal

**Q. 143***Mark one answer*

The roads are icy. You should drive slowly

- a. in the highest gear possible
- b. in the lowest gear possible
- c. with the handbrake partly on
- d. with your left foot on the brake

**Q. 144***Mark one answer*

When should you NOT use your horn in a built-up area?

- a. Between 8 pm and 8 am
- b. Between 9 pm and dawn
- c. Between dusk and 8 am
- d. Between 11.30 pm and 7 am

**Q. 145***Mark one answer*

You arrive at the scene of an accident. A passenger is bleeding badly from an arm wound. What should you do?

- a. Apply pressure over the wound and keep the arm down
- b. Dab the wound
- c. Get them a drink
- d. Apply pressure over the wound and raise the arm

**Q. 146**

Mark one answer

When reducing speed you should normally

- change down through each gear using the brakes as an aid
- use the brakes and then change down to the most suitable gear for the lower speed
- change down into the most suitable gear before reducing speed
- change down through each gear before using the brakes

**Q. 147**

Mark one answer

On a three-lane dual carriageway the right-hand lane can be used for

- overtaking only, never turning right
- overtaking or turning right
- fast-moving traffic only
- turning right only, never overtaking

**Q. 148**

Mark one answer

You are being overtaken at night. You should dip your lights

- well before the vehicle passes you
- as soon as the vehicle passes you
- well after the vehicle passes you
- only if the other car flashes its lights

**Q. 149**

Mark one answer

When a pupil asks relevant questions during a lesson the instructor should

- answer them as fully as possible
- tell the pupil to concentrate on driving
- suggest the pupil ask again at the end of the lesson
- write them down for later discussion

**Q. 150**

Mark one answer

While driving you intend to turn left into a minor road. On the approach you should

- keep just left of the middle of the road
- keep in the middle of the road
- swing out wide just before turning
- keep well to the left of the road

**Q. 151**

Mark one answer

You are parked in a busy high street. What is the safest way to turn your vehicle around to go the opposite way?

- Find a quiet side road to turn round in
- Drive into a side road and reverse into the main road
- Get someone to stop the traffic
- Do a U-turn

**Q. 152**

Mark one answer

When parking a vehicle with automatic transmission on a hill, apart from engaging the handbrake, you would put the gear selector in

- drive
- reverse
- park
- neutral

**Q. 153**

Mark one answer

When MUST you use dipped headlights during the day?

- All the time
- Along narrow streets
- In poor visibility
- When parking

**Q. 154**

Mark one answer

Your motor insurance policy has an excess of £100. What does this mean?

- The insurance company will pay the first £100 of any claim
- You will be paid £100 if you do not have an accident
- Your vehicle is insured for a value of £100 if it is stolen
- You will have to pay the first £100 of any claim

**Q. 155**

Mark one answer

The white line along the side of the road

- shows the edge of the carriageway
- shows the approach to a hazard
- means no parking
- means no overtaking

**Q. 156**

Mark one answer

When may you wait in a yellow box junction?

- When you are stationary in a queue of traffic
- When approaching a pelican crossing
- When approaching a zebra crossing
- When oncoming traffic prevents you turning right

**Q. 157**

Mark one answer

Overloading your vehicle can seriously affect the

- gearbox
- journey time
- handling
- battery life

**Q. 158**

Mark one answer

A vehicle pulls out in front of you at a junction. What should you do?

- Swerve past it and sound your horn
- Flash your headlights and drive up close behind
- Slow down and be ready to stop
- Accelerate past it immediately

**Q. 159**

Mark one answer

You are turning right into a dual carriageway. What should you do before emerging?

- Stop, apply the handbrake and then select a low gear
- Position your vehicle well to the left of the side road
- Check that the central reservation is deep enough for your vehicle
- Make sure that you leave enough room for a following vehicle

**Q. 160**

Mark one answer

When stopping normally a driver should apply the footbrake

- progressively at first, then use cadence braking system
- progressively and smoothly, easing off the brake as the car comes to rest
- lightly at first, increasing the pressure until stationary
- lightly at first and increase the pressure as the car comes to rest

**Q. 161**

Mark one answer

You intend to turn right into a side road. Just before turning you should check for motorcyclists who might be

- overtaking on your left
- following you closely
- emerging from the side road
- overtaking on your right

**Q. 163**

Mark one answer

Your vehicle is fitted with a hands free phone system. Using this equipment whilst driving

- is quite safe as long as you slow down
- could distract your attention from the road
- is recommended by The Highway Code
- could be very good for road safety

**Q. 164**

Mark one answer

When learning to drive, pupils must be accompanied by a person who has held a full driving licence for the category of vehicle being driven for

- at least 3 years and who is at least 21 years of age
- at least 4 years and who is at least 21 years of age
- at least 3 years and who is at least 25 years of age
- at least 4 years and who is at least 25 years of age

**Q. 165**

Mark one answer

You are driving on a long motorway journey. You begin to feel drowsy. You should

- pull over onto the hard shoulder as soon as it is safe to do so
- switch on your heater to circulate warm air
- open a window and pull in at the next service area or exit
- increase your speed and reduce your journey time

**Q. 166**

Mark one answer

Why is it dangerous to leave rear fog lights on when they are not needed?

- Brake lights are less clear
- The battery could fail
- Electrical systems could be overloaded
- Direction indicators may not work properly

**Q. 167**

Mark one answer

You are about to reverse into a side road. A pedestrian wishes to cross behind you. You should

- wave to the pedestrian to stop
- give way to the pedestrian
- wave to the pedestrian to cross
- reverse before the pedestrian starts to cross

**Q. 168**

Mark one answer

For which of these may you use hazard warning lights?

- When driving on a motorway to warn traffic behind of a hazard ahead
- When you are double parked on a two-way road
- When your direction indicators are not working
- When warning oncoming traffic that you intend to stop

**Q. 169**

Mark one answer

You are driving past a line of parked cars. You notice a ball bouncing out into the road ahead. What should you do?

- Continue driving at the same speed and sound your horn
- Continue driving at the same speed and flash your headlights
- Slow down and be prepared to stop for children
- Stop and wave the children across to fetch their ball

**Q. 170**

Mark one answer

You should switch your rear fog lights on when visibility drops below

- your overall stopping distance
- ten car lengths
- 200 metres (656 feet)
- 100 metres (328 feet)

**Q. 171**

Mark one answer

Anti-lock braking systems allow the driver to

- apply the brakes and steer at the same time
- accelerate without skidding
- brake without fear of skidding
- corner faster than other cars

**Q. 172**

Mark one answer

A basic rule when on motorways is

- use the lane that has least traffic
- keep to the left lane unless overtaking
- overtake on the side that is clearest
- try to keep above 50 mph to prevent congestion

**Q. 173**

Mark one answer

When taking a left turn a driver should position the vehicle

- well to the left of the road
- with the offside wheels close to the centre line
- midway between the centre line and the nearside edge of the road
- by steering slightly to the right before the turn

**Q. 174**

Mark one answer

Why is passing a lorry potentially more risky than passing a car?

- Lorries are longer than cars
- Lorries may suddenly pull up
- The brakes of lorries are not as good
- Lorries climb hills more slowly

**Q. 175**

Mark one answer

You will use more fuel if your tyres are

- under-inflated
- of different makes
- over-inflated
- new and hardly used

**Q. 176**

Mark one answer

Your vehicle has anti-lock brakes, but they may not always prevent skidding. This is most likely to happen when driving

- in foggy conditions
- on surface water
- at night on unlit roads
- on dry tarmac

**Q. 177**

Mark one answer

You are travelling on a well-lit road at night in a built-up area. By using dipped headlights you will be able to

- see further along the road
- go at a much faster speed
- switch to main beam quickly
- be easily seen by others

**Q. 178**

Mark one answer

An elderly person's driving ability could be affected because they may be unable to

- obtain car insurance
- understand road signs
- react very quickly
- give signals correctly

**Q. 179**

Mark one answer

You arrive at the scene of an accident. A pedestrian is bleeding heavily from a leg wound but the leg is not broken. What should you do?

- Dab the wound to stop the bleeding
- Keep both legs flat on the ground
- Apply firm pressure to the wound
- Fetch them a warm drink

**Q. 180**

Mark one answer

You are driving on a wet road. You have to stop your vehicle in an emergency. You should

- apply the handbrake and footbrake together
- keep both hands on the wheel
- select reverse gear
- give an arm signal

**Q. 181**

Mark one answer

You may drive with front fog lights switched on

- when visibility is less than 100 metres (328 feet)
- at any time to be noticed
- instead of headlights on high speed roads
- when dazzled by the lights of oncoming vehicles

**Q. 182**

Mark one answer

You are driving in heavy rain. Your steering suddenly becomes very light. You should

- steer towards the side of the road
- apply gentle acceleration
- brake firmly to reduce speed
- ease off the accelerator

**Q. 183**

Mark one answer

Flashing red lights

- always flash vertically
- vary depending on their location
- always flash horizontally
- always flash diagonally

**Q. 184**

Mark one answer

When driving in fog in daylight you should use

- sidelights
- full beam headlights
- hazard lights
- dipped headlights

**Q. 185**

Mark one answer

A puffin crossing operates an infrared scanner that holds the lights on

- red for traffic while pedestrians are still crossing
- amber for traffic while pedestrians are still crossing
- 'flashing amber' while pedestrians are still crossing
- green to allow drivers to proceed

**Q. 186**

Mark one answer

The police may ask you to produce which of these documents following an accident?

- Vehicle registration document
- Driving licence
- Theory test certificate
- Road tax disc

**Q. 187***Mark one answer*

You wish to turn right. Why should you take up the correct position in good time?

- a. To allow other drivers to pull out in front of you
- b. To give a better view into the road that you're joining
- c. To help other road users know what you intend to do
- d. To allow drivers to pass you on the right

**Q. 189***Mark one answer*

A police officer asks to see your documents. You do not have them with you. You may produce them at a police station within

- a. 5 days
- b. 7 days
- c. 14 days
- d. 21 days

**Q. 190***Mark one answer*

The most important consideration when a driver adjusts their seat is that they can

- a. use the mirrors properly
- b. leave more room for rear seat passengers
- c. operate the controls easily
- d. fasten the seatbelt

**Q. 191***Mark one answer*

The left-hand lane of a three-lane motorway is for use by

- a. any vehicle
- b. large vehicles only
- c. emergency vehicles only
- d. slow vehicles only

**Q. 192***Mark one answer*

What is the main reason why coasting is wrong?

- a. Fuel consumption will be higher
- b. It damages the engine
- c. It puts more wear and tear on the tyres
- d. You have less braking and steering control

**Q. 193***Mark one answer*

On a two-way road where an island splits a zebra crossing

- a. it is used as a traffic calming measure
- b. it should be treated as one crossing
- c. it should be treated as two crossings
- d. you can pass either side

**Q. 194***Mark one answer*

You are waiting to turn right from a side road and a vehicle with its left indicator flashing is approaching from the right. You should move out

- a. straight away
- b. after the vehicle has begun to turn
- c. when the vehicle starts to slow down
- d. just before the vehicle starts to turn

**Q. 195***Mark one answer*

To drive on the road learners MUST

- a. have NO penalty points on their licence
- b. have taken professional instruction
- c. have a signed, valid provisional licence
- d. apply for a driving test within 12 months

**Q. 196***Mark one answer*

At night you see a pedestrian wearing reflective clothing and carrying a bright red light. What does this mean?

- a. You are approaching road works
- b. You are approaching an organised walk
- c. You are approaching a slow-moving vehicle
- d. You are approaching an accident blackspot

**Q. 197***Mark one answer*

The legal minimum depth of tread for car tyres over three quarters of the breadth is

- a. 1 mm
- b. 1.6 mm
- c. 2.5 mm
- d. 4 mm

**Q. 198***Mark one answer*

You are approaching a zebra crossing. Pedestrians are waiting to cross. You should

- a. give way to the elderly and infirm only
- b. slow down and prepare to stop
- c. use your headlights to indicate they can cross
- d. wave at them to cross the road

**Q. 199***Mark one answer*

When are you allowed to use hazard warning lights?

- a. When stopped and temporarily obstructing traffic
- b. When travelling during darkness without headlights
- c. When parked for shopping on double yellow lines
- d. When travelling slowly because you are lost

**Q. 200***Mark one answer*

You have to make a journey in foggy conditions. You should

- a. follow other vehicles' tail lights closely
- b. avoid using dipped headlights
- c. leave plenty of time for your journey
- d. keep two seconds behind other vehicles

**Q. 202***Mark one answer*

When carrying out the 'emergency stop' exercise during a driving test, a candidate will be expected

- a. to use the mirrors before braking
- b. not to use the mirrors
- c. to use all the mirrors while braking
- d. to use all the mirrors then brake

**Q. 203***Mark one answer*

When driving in falling snow you should

- a. brake firmly and quickly
- b. be ready to steer sharply
- c. use sidelights only
- d. brake gently in plenty of time

**Q. 204***Mark one answer*

When approaching a hazard a driver's first action should be to

- a. reduce speed
- b. ensure the correct gear is engaged
- c. look in the mirrors
- d. signal

**Q. 205***Mark one answer*

In heavy motorway traffic you are being followed closely by the vehicle behind. How can you lower the risk of an accident?

- a. Increase your distance from the vehicle in front
- b. Tap your foot on the brake pedal sharply
- c. Switch on your hazard lights
- d. Move onto the hard shoulder and stop

**Q. 206***Mark one answer*

White markers with red stripes indicate that you are approaching

- a. the end of a motorway
- b. a concealed level crossing
- c. a concealed speed limit sign
- d. the end of a dual carriageway

**Q. 207***Mark one answer*

The radiator in a car is most likely to overheat if

- a. it has been overfilled
- b. it has insufficient coolant
- c. heater controls are turned fully up
- d. it is filled with antifreeze

## Q. 208

Mark one answer

You find that you need glasses to read vehicle number plates at the required distance. When MUST you wear them?

- a. Only in bad weather conditions
- b. At all times when driving
- c. Only when you think it necessary
- d. Only in bad light or at night time

## Q. 209

Mark one answer

You are driving over a level crossing. The warning lights come on and a bell rings. What should you do?

- a. Get everyone out of the vehicle immediately
- b. Stop and reverse back to clear the crossing
- c. Keep going and clear the crossing
- d. Stop immediately and use your hazard warning lights

## Q. 210

Mark one answer

When going through a contra flow system on a motorway you should

- a. ensure that you do not exceed 30 mph
- b. keep a good distance from the vehicle ahead
- c. switch lanes to keep the traffic flowing
- d. stay close to the vehicle ahead to reduce queues

## Q. 212

Mark one answer

Car passengers MUST wear a seat belt if one is available, unless they are

- a. under 14 years old
- b. under 1.5 metres (5 feet) in height
- c. sitting in the rear seat
- d. exempt for medical reasons

## Q. 213

Mark one answer

You arrive at an accident where someone is suffering from severe burns. You should

- a. burst any blisters
- b. douse the burns thoroughly with cool liquid
- c. apply lotions to the injury
- d. remove anything sticking to the burns

## Q. 214

Mark one answer

You are driving a vehicle fitted with anti-lock brakes. You need to stop in an emergency. You should apply the footbrake

- a. slowly and gently
- b. slowly but firmly
- c. rapidly and gently
- d. rapidly and firmly

## Q. 215

Mark one answer

You are on a narrow road at night. A slow-moving vehicle ahead has been signalling right for some time. What should you do?

- a. Overtake on the left
- b. Flash your headlights before overtaking
- c. Signal right and sound your horn
- d. Wait for the signal to be cancelled before overtaking

## Q. 216

Mark one answer

If your motorway journey seems boring and you feel drowsy whilst driving you should

- a. open a window and drive to the next service area
- b. stop on the hard shoulder for a sleep
- c. speed up to arrive at your destination sooner
- d. slow down and let other drivers overtake

## Q. 217

Mark one answer

You should not use a mobile phone whilst driving

- a. until you are satisfied that no other traffic is near
- b. unless you are able to drive one handed
- c. because it might distract your attention from the road ahead
- d. because reception is poor when the engine is running

## Q. 218

Mark one answer

You take the wrong route and find you are on a one-way street. You should

- a. reverse out of the road
- b. turn round in a side road
- c. continue to the end of the road
- d. reverse into a driveway

## Q. 219

Mark one answer

At a pelican crossing, what does a flashing amber light mean?

- a. You must not move off until the lights stop flashing
- b. You must give way to pedestrians still on the crossing
- c. You can move off, even if pedestrians are still on the crossing
- d. You must stop because the lights are about to change to red

## Q. 221

Mark one answer

You leave a motorway after travelling at speed for some time. The Highway Code advises that you should be sure to use your

- a. mirror
- b. speedometer
- c. brakes and gears
- d. signals

## Q. 222

Mark one answer

When you are NOT sure that it is safe to reverse your vehicle you should

- a. use your horn
- b. rev your engine
- c. get out and check
- d. reverse slowly

## Q. 223

Mark one answer

You are in a skid with the rear wheels sliding to the left. Oversteering to the left would have the effect of

- a. increasing the skid to the left
- b. improving driver control over the vehicle
- c. causing a skid in the opposite direction
- d. stopping the car quickly

## Q. 224

Mark one answer

You have stopped at a pelican crossing. A disabled person is crossing slowly in front of you. The lights have now changed to green. You should

- a. allow the person to cross
- b. drive in front of the person
- c. drive behind the person
- d. sound your horn

## Q. 226

Mark one answer

Diamond-shaped signs give instructions to

- a. tram drivers
- b. bus drivers
- c. lorry drivers
- d. taxi drivers

## Q. 227

Mark one answer

There has been an accident. The driver is suffering from shock. You should

- a. give them a drink
- b. ask who caused the accident
- c. not leave them alone
- d. offer them a cigarette

**Q. 228**

*Mark one answer*

You are driving towards a zebra crossing. Waiting to cross is a person in a wheelchair. You should

- a. continue on your way
- b. wave to the person to cross
- c. wave to the person to wait
- d. be prepared to stop

**Q. 229**

*Mark one answer*

You are testing your suspension. You notice that your vehicle keeps bouncing when you press down on the front wing. What does this mean?

- a. Worn tyres
- b. Tyres under-inflated
- c. Steering wheel not located centrally
- d. Worn shock absorbers

**Q. 230**

*Mark one answer*

You are joining a motorway. Why is it important to make full use of the slip road?

- a. Because there is space available to turn round if you need to
- b. To allow you direct access to the overtaking lanes
- c. To build up a speed similar to traffic on the motorway
- d. Because you can continue on the hard shoulder

**Q. 231**

*Mark one answer*

There is a slow-moving vehicle ahead of you. You are unsure what the driver is going to do. You should

- a. pass on the left
- b. pass on the right
- c. stay behind
- d. move closer

**Q. 232**

*Mark one answer*

You are turning left into a side road. Pedestrians are crossing the road near the junction. You must

- a. wave them on
- b. sound your horn
- c. switch on your hazard lights
- d. wait for them to cross

**Q. 233**

*Mark one answer*

You are at the front of a queue of traffic waiting to turn right into a side road. Why is it important to check your right mirror just before turning?

- a. To look for pedestrians about to cross
- b. To check for overtaking vehicles
- c. To make sure the side road is clear
- d. To check for emerging traffic

**Q. 234**

*Mark one answer*

When overtaking a horse and rider you should

- a. sound your horn as a warning
- b. go past as quickly as possible
- c. flash our headlights as a warning
- d. go past slowly and carefully

**Q. 235**

*Mark one answer*

On a clearway you must not stop

- a. at any time
- b. when it is busy
- c. in the rush hour
- d. during daylight hours

**Q. 236**

*Mark one answer*

When overtaking at night you should

- a. wait until a bend so that you can see the oncoming headlights
- b. sound your horn twice before moving out
- c. be careful because you can see less
- d. put headlights on full beam

**Q. 237**

*Mark one answer*

Anti-lock brakes are most effective when you

- a. keep pumping the footbrake to prevent skidding
- b. brake normally, but grip the steering wheel tightly
- c. brake rapidly and firmly until you have slowed down
- d. apply the handbrake to reduce the stopping distance

**Q. 238**

*Mark one answer*

You have been involved in an argument before starting your journey. This has made you feel angry. You should

- a. start to drive, but open a window
- b. drive slower than normal and turn your radio on
- c. have an alcoholic drink to help you relax before driving
- d. calm down before you start to drive

**Q. 239**

*Mark one answer*

Your pupil is approaching a long, steep downhill gradient. They should

- a. reduce speed and engage a lower gear before beginning the descent
- b. apply the handbrake to keep the speed down and then occasionally use the footbrake
- c. use the footbrake continuously and when the gradient increases change down to a lower gear during the descent
- d. reduce speed and engage a high gear before beginning the descent

**Q. 241**

*Mark one answer*

Part of 'MSM' routine is referred to by the abbreviation 'PSL'. These letters stand for

- a. position – slow down – lifesaver
- b. position – signal – look
- c. position – speed – look
- d. position – speed – lifesaver

**Q. 242**

*Mark one answer*

Drivers should normally be prepared to dip their lights earlier than usual if they are going

- a. around a left-hand bend
- b. downhill on a bend
- c. around a right-hand bend
- d. uphill

**Q. 243**

*Mark one answer*

When is it legal to drive a car over three years old without an MOT certificate?

- a. Up to seven days after the old certificate has run out
- b. When driving to an MOT centre to arrange an appointment
- c. Just after buying a second-hand car with no MOT
- d. When driving to an appointment at an MOT centre

**Q. 244**

*Mark one answer*

What is the shortest overall stopping distance on a dry road from 60 mph?

- a. 53 metres (175 feet)
- b. 58 metres (190 feet)
- c. 73 metres (240 feet)
- d. 96 metres (315 feet)

**Q. 245**

*Mark one answer*

You are driving in poor daylight conditions. Although visibility is not seriously reduced you should switch on your

- a. hazard warning lights
- b. dipped headlights
- c. side and rear lights only
- d. rear fog lights

**Q. 246**

*Mark one answer*

You are on a three-lane motorway towing a trailer. You may use the right-hand lane when

- a. there are lane closures
- b. there is slow moving traffic
- c. you can maintain a high speed
- d. large vehicles are in the left and centre lanes

**Q. 247**

*Mark one answer*

You should ONLY flash your headlights to other road users

- a. to show that you are giving way
- b. to show that you are about to turn
- c. to tell them that you have right of way
- d. to let them know that you are there

**Q. 248**

*Mark one answer*

Antifreeze should be left in the coolant system all year. It is advisable to have the density checked

- a. only when the coolant has changed colour
- b. once a year
- c. twice a year
- d. every five years

**Q. 249**

*Mark one answer*

You are on a motorway. There is a contra flow system ahead. What would you expect to find?

- a. Temporary traffic lights
- b. Lower speed limits
- c. Wider lanes than normal
- d. Speed humps

**Q. 250**

*Mark one answer*

Vehicle excise duty is often called 'Road Tax' or 'The Tax Disc'. You must

- a. keep it with your registration document
- b. display it clearly on your vehicle
- c. keep it concealed safely in your vehicle
- d. carry it on you at all times

**Q. 251**

*Mark one answer*

Using front fog lights in clear daylight will

- a. flatten the battery
- b. dazzle other drivers
- c. improve your visibility
- d. increase your awareness

**Q. 253**

*Mark one answer*

When you are giving mouth to mouth you should only stop when

- a. you think the casualty is dead
- b. the casualty can breathe without help
- c. the casualty has turned blue
- d. you think the ambulance is coming

**Q. 254**

*Mark one answer*

When following another vehicle in urban slow-moving traffic the gap between you and the vehicle in front should never be less than

- a. a cars length
- b. your thinking distance
- c. two seconds
- d. four seconds

**Q. 255**

*Mark one answer*

You are driving along a road and a car is reversing from a driveway on your left. You should

- a. move to the opposite side of the road
- b. drive through as you have priority
- c. sound your horn and be prepared to stop
- d. speed up and drive through quickly

**Q. 256**

*Mark one answer*

You are driving in slow-moving queues of traffic. Just before changing lane you should

- a. sound the horn
- b. look for motorcyclists filtering through the traffic
- c. give a 'slowing down' arm signal
- d. change down to first gear

**Q. 257**

*Mark one answer*

As a car driver which of these lanes are you NOT normally allowed to use?

- a. Crawler lane
- b. Cycle lane
- c. Overtaking lane
- d. Accelerating lane

**Q. 258**

*Mark one answer*

You are driving past parked cars. You notice a wheel of a bicycle sticking out between them. What should you do?

- a. Accelerate past quickly and sound our horn
- b. Slow down and wave the cyclist across
- c. Brake sharply and flash your headlights
- d. Slow down and be prepared to stop for a cyclist

**Q. 259**

*Mark one answer*

You are waiting at a pelican crossing. The red light changes to flashing amber. This means you must

- a. wait for pedestrians on the crossing to clear
- b. move immediately without any hesitation
- c. wait for the green light before moving off
- d. get ready and go when the continuous amber light shows

**Q. 260**

*Mark one answer*

You are following a vehicle at a safe distance on a wet road. Another driver overtakes you and pulls into the gap you have left. What should you do?

- a. Flash your headlights as a warning
- b. Try to overtake safely as soon as you can
- c. Drop back to regain a safe distance
- d. Stay close to the other vehicle until it moves on

**Q. 261**

*Mark one answer*

You see a pedestrian with a dog. The dog has a bright orange lead and collar. This especially warns you that the pedestrian is

- a. elderly
- b. dog training
- c. colour blind
- d. deaf

**Q. 263**

*Mark one answer*

When you approach a bus signalling to move off from a bus stop you should

- a. get past before it moves
- b. allow it to pull away, if it is safe to do so
- c. flash your headlights as you approach
- d. signal left and wave the bus on

**Q.264**

*Mark one answer*

A driver intends to make a normal stop. They should apply the footbrake

- a. progressively and smoothly, easing off as the car comes to rest
- b. progressively at first, increasing the pressure until stationary
- c. firmly at first, then by cadence braking
- d. firmly at first then increase the pressure until stationary

**Q. 265**

*Mark one answer*

Anti-lock brakes prevent wheels from locking. This means the tyres are less likely to

- a. aquaplane
- b. skid
- c. puncture
- d. wear

**Q. 266**

*Mark one answer*

You must not use your horn when you are stationary

- a. unless a moving vehicle may cause you danger
- b. at any time whatsoever
- c. unless it is used only briefly
- d. except for signalling that you have just arrived

**Q. 267**

*Mark one answer*

On a dual carriageway, unless road signs indicate otherwise, the speed limit for a car outside a built-up area is

- a. 50 mph
- b. 60 mph
- c. 70 mph
- d. unrestricted

**Q. 268**

*Mark one answer*

You should inform a pregnant pupil, who is not medically exempt

- a. to only wear the lap part of a three-point belt
- b. it is not necessary to wear a seatbelt
- c. they must wear the seatbelt in the normal way
- d. they should not take lessons until after the birth

**Q. 269**

*Mark one answer*

Anti-lock brakes reduce the chances of a skid occurring particularly when

- a. driving down steep hills
- b. braking during normal driving
- c. braking in an emergency
- d. driving on good road surfaces

**Q. 270**

Mark one answer

Normally when travelling forward and braking the

- grip will remain constant on all four wheels
- front tyres will grip the road more than the rear
- rear tyres will grip the road more than the front
- tyres will not grip until braking firmly

**Q. 271**

Mark one answer

The types of road users that would use a toucan crossing are

- cyclists only
- pedestrians only
- cyclists and pedestrians
- horses

**Q. 272**

Mark one answer

You are following two cyclists. They approach a roundabout in the left-hand lane. In which direction should you expect the cyclists to go?

- Left
- Right
- Any direction
- Straight ahead

**Q. 273**

Mark one answer

On a motorway the amber reflective studs can be found between

- the hard shoulder and the carriageway
- the acceleration lane and the carriageway
- the central reservation and the carriageway
- each pair of the lanes

**Q. 274**

Mark one answer

Your car is fitted with anti-lock brakes. You need to stop in an emergency. You should

- brake normally and avoid turning the steering wheel
- press the brake pedal rapidly and firmly until you have stopped
- keep pushing and releasing the footbrake quickly to prevent skidding
- apply the handbrake to reduce the stopping distance

**Q. 275**

Mark one answer

You have been taking medicine for a few days, which made you feel drowsy. Today you feel better but still need to take the medicine. You should only drive

- if your journey is necessary
- at night on quiet roads
- if someone goes with you
- after checking with your doctor

**Q. 277**

Mark one answer

You are on a two-lane dual carriageway. When would you use the right-hand lane?

- For overtaking slower traffic
- For making normal progress
- When driving at the minimum allowed speed
- For driving at a constant high speed

**Q. 278**

Mark one answer

You are driving on a motorway in daylight in misty or hazy conditions. In order to be seen you should switch on your

- dipped headlights
- full beam headlights
- side and rear lights only
- hazard lights

**Q. 280**

Mark one answer

You are waiting at a level crossing. The red warning lights continue to flash after a train has passed by. What should you do?

- Get out and investigate
- Telephone the signal operator
- Continue to wait
- Drive across carefully

**Q. 281**

Mark one answer

Which of these, if allowed to get low, could cause an accident?

- Antifreeze level
- Brake fluid level
- Battery water level
- Radiator coolant level

**Q. 282**

Mark one answer

You enter a road where there are road humps. What should you do?

- Maintain a reduced speed throughout
- Accelerate quickly between each one
- Always keep to the maximum legal speed
- Drive slowly at school times only

**Q. 283**

Mark one answer

Of the three manoeuvres: 'Turn in the road' – 'Reverse parking' – 'Reversing into a side road' – those that will be included in the driving test are

- all three will be included
- any one of the above
- any two of the above
- the examiner has the option

**Q. 284**

Mark one answer

A bus is stopped at a bus stop ahead of you. It's right-hand indicator is flashing. You should

- flash your headlights and slow down
- slow down and give way, if it is safe to do so
- sound your horn and keep going
- slow down and the sound your horn

**Q. 285**

Mark one answer

Where can you find reflective amber studs on a motorway?

- Separating the slip road from the motorway
- On the left-hand edge of the road
- On the right-hand edge of the road
- Separating the lanes

**Q. 286**

Mark one answer

You are approaching a pelican crossing. The amber light is flashing. You must

- give way to pedestrians who are crossing
- encourage pedestrians to cross
- not move until the green light appears
- stop even if the crossing is clear

**Q. 287**

Mark one answer

You are about to go down a steep hill. To control the speed of your vehicle you should

- select a high gear and use the brakes carefully
- select a high gear and use the brakes firmly
- select a low gear and use the brakes carefully
- select a low gear and avoid using the brakes

**Q. 288**

Mark one answer

Motor cars must FIRST have an MOT test certificate when they are

- one year old
- three years old
- five years old
- seven years old

**Q. 289**

Mark one answer

You are following other vehicles in fog with your lights on. How else can you reduce the chances of being involved in an accident?

- Keep close to the vehicle in front
- Use your main beam instead of dipped headlights
- Keep together with the faster vehicles
- Reduce your speed and increase the gap

## Q. 290

Mark one answer

Having completed a reversing into a side road manoeuvre, but deciding to consolidate instruction with another attempt, before driving forward to the start position do you need to

- leave the seatbelt off
- wear a seatbelt
- use your discretion depending on traffic conditions
- fit the seatbelt before entering the major road

## Q. 291

Mark one answer

What type of vehicle answering an emergency call would have a green flashing beacon?

- Fire engine
- Coastguard
- Ambulance
- Doctor's car

## Q. 292

Mark one answer

In freezing conditions, braking distances can be

- five times the normal distance
- seven times the normal distance
- twice the normal distance
- ten times the normal distance

## Q. 293

Mark one answer

You arrive at the scene of a motorcycle accident. No other vehicle is involved. The rider is unconscious, lying in the middle of the road. The first thing you should do is

- move the rider out of the road
- warn other traffic
- clear the road of debris
- give the rider reassurance

## Q. 294

Mark one answer

What does the solid white line at the side of the road indicate?

- Traffic lights ahead
- Edge of the carriageway
- Footpath on the left
- Cycle path

## Q. 295

Mark one answer

'Driving the essential skills' advises that to set the interior rear view mirror correctly, you should move it until you get the best possible view through the back window especially to the

- offside
- front offside
- centre
- rear nearside

## Q. 296

Mark one answer

A large white triangle on the road surface before a road junction warns drivers that

- they must stop at the junction
- they must give way at the junction
- the road widens just ahead
- they are entering a two-way road

## Q. 297

Mark one answer

You are driving towards a left-hand bend on a country road with no pavements. What dangers should you be aware of?

- A vehicle overtaking you
- No white lines in the centre of the road
- No sign to warn you of the bend
- Pedestrians walking towards you

## Q. 298

Mark one answer

The centre lane of a three-lane motorway is for

- overtaking slower moving vehicles on your left
- overtaking vehicles on your right
- when travelling at a constant speed of 60 mph or less
- maintaining a speed of between 60 and 70 mph

## Q. 299

Mark one answer

Disc brakes are generally subject to

- more brake fade than drum brakes
- more overheating than drum brakes
- less brake fade than drum brakes
- uneven braking

## Q. 300

Mark one answer

Your vehicle is fitted with 'child safety' door locks. You should use these so that children inside the car cannot open

- the right-hand doors
- the left-hand doors
- the rear doors
- any of the doors

## Q. 301

Mark one answer

Hills can affect the performance of your vehicle. Which of the following applies when driving up steep hills?

- Higher gears will pull better
- You will slow down sooner
- Overtaking will be easier
- The steering will feel heavier

## Q. 302

Mark one answer

Amber markers will be found

- by the central reservation on a dual carriageway
- at a designated bus stop
- on the left-hand side of a bend on a rural motorway
- at a service station entrance

## Q. 303

Mark one answer

What safeguards could you take against fire risk to your vehicle?

- Keep water levels above maximum
- Check out any strong smell of petrol
- Avoid riding with a full tank of petrol
- Use unleaded petrol

## Q. 304

Mark one answer

Persons suffering from a medical condition requiring treatment by drugs should, initially before driving, consult the

- DVLA Medical Branch
- Vehicle Inspectorate Agency
- Police
- Driving Standards Agency

## Q. 305

Mark one answer

Using a mobile phone while you are driving

- is acceptable in a vehicle with power steering
- will reduce your field of vision
- could distract your attention from the road
- will affect your vehicle's electronic systems

## Q. 306

Mark one answer

Motorcyclists are particularly vulnerable

- when moving off
- on dual carriageways
- when approaching junctions
- on motorways

## Q. 307

Mark one answer

You are driving around a left-hand bend at night. There is busy oncoming traffic. Your lights should be on

- dipped beam, then main beam
- main beam
- dipped beam
- sidelights

## Q. 308

Mark one answer

When leaving your car, to help keep it secure you should

- leave the hazard warning lights on
- lock it and remove the key
- park on a one-way street
- park in a residential area

## Q. 310

Mark one answer

After passing your driving test, you suffer from ill health. This affects your driving. You MUST

- inform your local police station
- get on as best you can
- not inform anyone as you hold a full licence
- inform the licensing authority

## Q. 311

Mark one answer

Which of the following are most likely to take an unusual course at roundabouts?

- Estate cars
- Milk floats
- Delivery vans
- Long vehicles

**Q. 312**

*Mark one answer*

You are driving in the right-hand lane at the maximum speed on a dual carriageway. There is a faster car approaching from the rear, which appears determined to pass. You should

- feather the footbrake to warn them off
- do not hurry yourself, remain calm. They should not exceed the speed limit
- move over when it is safe
- slow down and indicate left

**Q. 313**

*Mark one answer*

You are crossing a dual carriageway from a side road. The central reservation is too narrow for the length of your vehicle. You should

- move to the central reservation close to the other carriageway and go when a safe gap occurs
- wait in the side road, until you can cross the dual carriageway in one movement
- wait for a gap in the traffic then move forward blocking the first half of the road and proceed when safe
- wait in the side road until someone gives way

**Q. 314**

*Mark one answer*

You are travelling in heavy rain. Your overall stopping distance is likely to be

- doubled
- halved
- up to ten times greater
- no different

**Q. 315**

*Mark one answer*

You wish to overtake a long, slow-moving vehicle on a busy road. You should

- follow it closely and keep moving out to see the road ahead
- flash your headlights for oncoming traffic to give way
- stay behind until the driver waves you past
- keep well back until you can see that it is clear

**Q. 316**

*Mark one answer*

You are on a country road. What should you expect to see coming towards you on YOUR side of the road?

- Motorcycles
- Bicycles
- Pedestrians
- Horses

**Q.317**

*Mark one answer*

At roundabouts, road markings

- will always indicate "Give Way" to the right
- will often give priority to traffic from the right and left
- will sometimes give priority to traffic entering
- will never give priority to traffic entering

**Q. 318**

*Mark one answer*

You are driving a friend's children home from school. They are both under 14 years old. Who is responsible for making sure they wear a seat belt?

- An adult passenger
- The children
- You, the driver
- Your friend

**Q. 319**

*Mark one answer*

You are driving at night with full beam headlights on. A vehicle is overtaking you. You should dip your lights

- some time after the vehicle has passed you
- before the vehicle starts to pass you
- only if the other driver dips their headlights
- as soon as the vehicle passes you

**Q. 320**

*Mark one answer*

If another driver flashes their headlights a pupil should be taught to

- hold their ground as the signal is not an official one
- make sure they correctly interpret what the other driver is going to do
- make progress while the opportunity is available
- flash their own lights

**Q. 321**

*Mark one answer*

You have a collision whilst your car is moving. What is the first thing you must do?

- Stop only if there are injured people
- Call the emergency services
- Stop at the scene of the accident
- Call your insurance company

**Q. 322**

*Mark one answer*

Rear facing baby seats should NEVER be used on a seat protected with

- an airbag
- seat belts
- head restraints
- seat covers

**Q. 323**

*Mark one answer*

At a pelican crossing the flashing amber signal follows the

- red signal
- green signal
- steady amber signal
- red and amber together

**Q. 324**

*Mark one answer*

You are teaching the "turn in the road" manoeuvre. Your pupil is reversing across the road. They should look

- over the left shoulder only
- over the right shoulder only
- effectively over both shoulders
- continually in the mirrors

**Q. 325**

*Mark one answer*

Your vehicle breaks down on the hard shoulder of a motorway. You decide to use your mobile phone to call for help. You should

- stand at the rear of the vehicle while making the call
- try to repair the vehicle yourself
- get out of the vehicle by the right-hand door
- check your location from the marker posts on the left

**Q. 326**

*Mark one answer*

The effects of a sticking automatic choke would be to

- have no effect on the control
- make steering easier
- make the vehicle more difficult to control
- use less fuel

**Q. 327**

*Mark one answer*

When turning left at a road junction you should advise your pupil to always

- look left then right before emerging
- take effective observation before emerging
- look right only before emerging
- look left only before emerging

**Q. 328**

*Mark one answer*

You would see a contra flow bus and cycle lane on

- a dual carriageway
- a roundabout
- an urban motorway
- a one-way street

**Q. 329**

*Mark one answer*

Why are yellow lines painted across the road on the approach to roundabouts?

- To help you choose the correct lane
- To help you keep the correct separation distance
- To make you aware of your speed
- To tell you the distance to the roundabout

**Q. 330**

*Mark one answer*

At a zebra crossing, with a central island, a driver must give way when a pedestrian

- has stepped onto the crossing on the driver's half of the road
- is on the footpath, near the crossing, and looking for approaching traffic
- is stood on an island in the middle of the road
- has stepped onto the crossing on the other side of the road

**Q. 331**

*Mark one answer*

You are driving on a three-lane motorway, you may

- overtake on the left if the traffic queue on the right is moving more slowly than you are
- overtake on the left when the right-hand lane is closed
- not overtake on the left at any time
- use any lane available to overtake

**Q. 332**

*Mark one answer*

When approaching a contra flow system, you should

- a. follow other motorists closely to avoid long queues
- b. switch lanes anytime to make progress
- c. choose an appropriate lane early
- d. increase speed to pass through quickly

**Q. 333**

*Mark one answer*

You are driving on an icy road. How can you avoid wheel spin?

- a. Drive at a slow speed in as high a gear as possible
- b. Use the handbrake if the wheels start to slip
- c. Brake gently and repeatedly
- d. Drive in a low gear at all times

**Q. 334**

*Mark one answer*

What do zigzag lines at a pedestrian crossing mean?

- a. No parking at any time
- b. Parking allowed only for a short period
- c. Slow down to 20 mph
- d. Sounding horns is not allowed

**Q. 335**

*Mark one answer*

You are turning left on a slippery road. The back of your vehicle slides to the right. You should

- a. brake firmly and not turn the steering wheel
- b. steer carefully to the left
- c. steer carefully to the right
- d. brake firmly and steer to the left

**Q. 336**

*Mark one answer*

You are taking drugs that are likely to affect your driving. What should you do?

- a. Seek medical advice before driving
- b. Limit your driving to essential journeys
- c. Only drive if accompanied by a full licence holder
- d. Drive only for short distances

**Q. 337**

*Mark one answer*

You are approaching a red traffic light. The signal will change from red to

- a. red and amber, then green
- b. green, then amber
- c. amber, then green
- d. green and amber, then green

**Q. 338**

*Mark one answer*

As a driver you can help reduce pollution levels in town centres by

- a. driving more quickly
- b. using leaded fuel
- c. walking or cycling
- d. driving short journeys

**Q. 339**

*Mark one answer*

Tactile paving at pedestrian crossings is to help

- a. mothers with prams
- b. drivers decide whether to stop or not
- c. blind or partially sighted people
- d. people with hearing problems

**Q. 340**

*Mark one answer*

On the motorway the hard shoulder should be used

- a. to answer a mobile phone
- b. when an emergency arises
- c. for a short rest when tired
- d. to check a road atlas

**Q. 341**

*Mark one answer*

A driver does something that upsets you. You should

- a. try not to react
- b. let them know how you feel
- c. flash your headlights several times
- d. sound your horn

**Q. 342**

*Mark one answer*

You are driving in the right-hand lane on a three-lane motorway. An overhead signal is showing a white illuminated arrow pointing down towards the left. You should

- a. move to the left-hand lane
- b. leave the motorway at the next exit
- c. move to the middle lane
- d. stop

**Q. 343**

*Mark one answer*

When cornering on ice and/or snow you should

- a. approach corners at a steady speed using as high a gear as possible
- b. drive slowly throughout keeping the engine speed high
- c. use the lowest gear possible
- d. slip the clutch and brake firmly

**Q. 344**

*Mark one answer*

A disabled driver who had difficulty turning their head would be most likely to benefit from

- a. special seating
- b. additional mirrors
- c. a dispensation not to use the seat belt
- d. automatic transmission

**Q. 345**

*Mark one answer*

Any load that is carried on a roof rack MUST be

- a. securely fastened when driving
- b. carried only when strictly necessary
- c. as light as possible
- d. covered with plastic sheeting

**Q. 346**

*Mark one answer*

You forget to switch off your rear fog lights when the fog has cleared. This may

- a. seriously affect engine power
- b. reduce battery life
- c. use more fuel
- d. be breaking the law

**Q. 348**

*Mark one answer*

When a red breakdown-warning triangle is used it should be placed to the rear of the vehicle at a distance of

- a. 45 metres (147 feet)
- b. 90 metres (294 feet)
- c. 125 metres (408 feet)
- d. 150 metres (490 feet)

**Q. 349**

*Mark one answer*

For which of the following is a toucan crossing designed?

- a. Cyclists
- b. Pedestrians only
- c. Cyclists and pedestrians
- d. Horses and cyclists

**Q. 350**

*Mark one answer*

You are driving along a road and an articulated lorry starts to emerge from a junction on the offside. What should you be prepared to do?

- a. Sound your horn and continue
- b. Slow down and give way
- c. Report the driver to the police
- d. Squeeze through the gap

**Q. 351**

*Mark one answer*

An anti-lock braking system is designed to allow the driver to

- a. accelerate without skidding
- b. apply the brakes and steer at the same time
- c. brake without fear of skidding
- d. release the brakes and steer

**Q. 352**

*Mark one answer*

When starting off on a hill on deep snow or ice you should

- a. use an intermediate gear and accelerate firmly
- b. use a lower gear, with light acceleration
- c. use an intermediate gear, with light acceleration
- d. use the highest gear, with firm acceleration

**Q. 353**

*Mark one answer*

How can you help prevent your car radio being stolen?

- a. Park in an unlit area
- b. Hide the radio with a blanket
- c. Park near a busy junction
- d. Install a security coded radio

## Q. 354

Mark one answer

'Red routes' in major cities have been introduced to

- raise the speed limits
- help the traffic flow
- provide better parking
- allow lorries to load more freely

## Q. 355

Mark one answer

You are approaching a busy junction. There are several lanes with road markings. At the last moment you realise that you are in the wrong lane. You should

- continue in that lane
- force your way across
- stop until the area has cleared
- use clear arm signals to cut across

## Q. 356

Mark one answer

A black and white chevron sign indicates that the road

- goes steeply uphill
- goes steeply downhill
- bends sharply to the left or right
- is closed ahead

## Q. 357

Mark one answer

You should never attempt to overtake a cyclist

- just before you turn left
- on a left-hand bend
- on a one-way street
- on a dual carriageway

## Q. 358

Mark one answer

You are waiting to emerge from a junction. A vehicle is approaching quickly from your right with its left indicator flashing. What should you do?

- Apply the handbrake, select neutral and wait
- Make sure the vehicle is turning left before proceeding
- Assume the vehicle is turning left and proceed
- Edge forward to improve your view, be prepared to stop

## Q. 359

Mark one answer

Following a large vehicle too closely is unwise because

- your brakes will overheat
- your view ahead is increased
- your engine will overheat
- your view ahead is reduced

## Q. 360

Mark one answer

You intend to turn left at traffic lights. Just before turning you should

- check your right mirror
- move close up to the white car
- straddle the lanes
- check for bicycles on your left

## Q. 361

Mark one answer

You are intending to turn right at a crossroads. An oncoming driver is also turning right. It will normally be safer to

- keep the other vehicle to your RIGHT and turn behind it (offside to offside)
- keep the other vehicle to your LEFT and turn in front of it (nearside to nearside)
- carry on and turn at the next junction instead
- hold back and wait for the other driver to turn first

## Q. 362

Mark one answer

A newly qualified driver must

- display green 'L' plates
- not exceed 40 mph for 12 months
- be accompanied on a motorway
- have valid motor insurance

## Q. 363

Mark one answer

Unbalanced wheels on a car may cause

- the steering to pull to one side
- the steering to vibrate
- the brakes to fail
- the tyres to deflate

## Q. 364

Mark one answer

A red traffic light means

- you must stop behind the white stop line
- you may go straight on if there is no other traffic
- you may turn left if it is safe to do so
- you must slow down and prepare to stop if traffic has started to cross

## Q. 365

Mark one answer

You are driving at night with your rear fog lights switched on. This may

- reduce glare from the road surface
- help your indicators to be seen more clearly
- give a better view of the road ahead
- dazzle following drivers

## Q. 366

Mark one answer

You are following a lorry. You should keep well back from it to

- give you a good view of the road ahead
- stop following traffic from rushing through the junction
- prevent traffic behind you from overtaking
- allow you to hurry through the traffic lights if they change

## Q. 367

Mark one answer

An examiner uses an old style number plate (e.g. A 123 ABC) containing letters and figures of 79.4mm (3 1/8 inches high) for the eyesight test. What is the regulation distance it must be read from?

- 20.5 metres (67 feet)
- 22.7 metres (75 feet)
- 26 metres (85 feet)
- 28 metres (92 feet)

## Q. 368

Mark one answer

A properly adjusted head restraint will

- make you more comfortable
- help you to avoid neck injury
- help you to relax
- help you to maintain your driving position

## Q. 369

Mark one answer

You have been convicted of driving whilst unfit through drink or drugs. You will find that this is likely to cause the cost of one of the following to rise considerably. Which one?

- Road fund licence
- Insurance premiums
- Vehicle test certificate
- Driving licence

## Q. 370

Mark one answer

A person who is blind in one eye is

- only permitted to drive whilst wearing glasses
- required to have a restricted licence to drive a motor car
- permitted to drive a motor car
- not permitted to drive a motor car

## Q. 371

Mark one answer

Why should you not coast downhill?

- It causes more wear and tear on the tyres
- Fuel consumption will increase
- You have less control of your vehicle
- It causes more wear and tear on the suspension

## Q. 372

Mark one answer

You are waiting to emerge left from a minor road. A large vehicle is approaching from the right. You have time to turn, but you should wait. Why?

- The large vehicle can easily hide an overtaking vehicle
- The large vehicle can turn suddenly
- The large vehicle is difficult to steer in a straight line
- The large vehicle can easily hide vehicles from the left

## Q. 373

Mark one answer

You are driving at night on an unlit road following a slower moving vehicle. You should

- flash your headlights
- use dipped beam headlights
- switch off your headlights
- use full beam headlights

## Q. 374

Mark one answer

Road humps, chicanes, and narrowings are

- always at major road works
- used to increase traffic speed
- at toll-bridge approaches only
- traffic calming measures

**Q. 375**

Mark one answer

There are double solid white lines along the centre of the road. You wish to pass a parked vehicle on your left. You

- a. may pass the stationary vehicle only if you do not cross the solid line
- b. may pass the stationary vehicle
- c. must not pass the stationary vehicle
- d. must find another route

**Q. 376**

Mark one answer

As a driver why should you be more careful where trams operate?

- a. Because they do not have a horn
- b. Because they do not stop for cars
- c. Because they do not have lights
- d. Because they cannot steer to avoid you

**Q. 377**

Mark one answer

Immediately after joining a motorway you should normally

- a. try to overtake
- b. re-adjust your mirrors
- c. position your vehicle in the centre lane
- d. keep in the left lane

**Q. 378**

Mark one answer

On a motorway you may ONLY stop on the hard shoulder

- a. in an emergency
- b. if you feel tired and need to rest
- c. if you accidentally go past the exit that you wanted to take
- d. to pick up a hitchhiker

**Q. 379**

Mark one answer

Which shape is used for a GIVE WAY sign?

- a. Square
- b. Circular
- c. Octagonal
- d. Triangular

**Q. 380**

Mark one answer

When driving in traffic lanes a driver should be positioned

- a. well to the left of the lane
- b. in the centre of the lane
- c. marginally to the right of the lane
- d. wherever they feel comfortable

**Q. 381**

Mark one answer

Why is coasting wrong?

- a. It will cause the car to skid
- b. It will make the engine stall
- c. The engine will run faster
- d. There is no engine braking

**Q. 382**

Mark one answer

You think the driver of the vehicle in front has forgotten to cancel the right indicator. You should

- a. flash your lights to alert the driver
- b. sound your horn before overtaking
- c. overtake on the left if there is room
- d. stay behind and not overtake

**Q. 383**

Mark one answer

You should never wave people across at pedestrian crossings because

- a. there may be another vehicle coming
- b. they may not be looking
- c. it is safer for you to carry on
- d. they may not be ready to cross

**Q. 384**

Mark one answer

You are driving on a clear night. There is a steady stream of oncoming traffic. The national speed limit applies. Which lights should you use?

- a. Full beam headlights
- b. Sidelights
- c. Dipped headlights
- d. Fog lights

**Q. 385**

Mark one answer

You are driving at night and are dazzled by the headlights of an approaching car. You should

- a. flash your headlights
- b. continue to drive on full beam
- c. slow down or stop
- d. drive faster past the oncoming car

**Q. 386**

Mark one answer

You should ONLY use a mobile phone when

- a. receiving a call
- b. suitably parked
- c. driving at less than 30 mph
- d. driving an automatic vehicle

**Q. 387**

Mark one answer

You may remove your seatbelt

- a. only when reversing round a corner
- b. when carrying out any manoeuvre which involves reversing
- c. only when reversing round a corner or completing a turn in the road
- d. for the emergency stop

**Q. 388**

Mark one answer

On your vehicle, where would you find a catalytic converter?

- a. In the fuel tank
- b. In the air filter
- c. On the cooling system
- d. On the exhaust system

**Q. 389**

Mark one answer

You are driving on an urban clearway. You may stop only to

- a. set down and pick up passengers
- b. use a mobile telephone
- c. ask for directions
- d. load or unload goods

**Q. 390**

Mark one answer

You are driving in falling snow. Your wipers are not clearing the windscreen. You should

- a. set the windscreen demister to cool
- b. be prepared to clear the windscreen by hand
- c. use the windscreen washers
- d. partly open the front windows

**Q. 391**

Mark one answer

At an accident a casualty is unconscious but still breathing. You should only move them if

- a. an ambulance is on its way
- b. bystanders advise you to
- c. there is further danger
- d. bystanders will help you to

**Q. 392**

Mark one answer

The national speed limit for a car on a dual carriageway is

- a. 30 mph
- b. 50 mph
- c. 60 mph
- d. 70 mph

**Q. 393**

Mark one answer

In bad weather conditions headlights must be used if visibility is

- a. 100 metres (328 feet) or less
- b. 125 metres (408 feet) or less
- c. 150 metres (490 feet) or less
- d. 175 metres (572 feet) or less

**Q. 394**

Mark one answer

Why should you test your brakes after driving through a ford?

- a. Because you will be on a slippery road
- b. Because your brakes will be soaking wet
- c. Because you will have gone down a long hill
- d. Because you will have just crossed a long bridge

**Q. 395**

Mark one answer

When parking on the left at the kerb facing uphill the steering wheel should be

- a. turned to the right
- b. turned to the left
- c. straight ahead
- d. in the locked position

**Q. 396**

Mark one answer

Your vehicle has broken down on a motorway. You are not able to stop on the hard shoulder. What should you do?

- a. Switch on your hazard warning lights
- b. Stop following traffic and ask for help
- c. Attempt to repair your vehicle quickly
- d. Stand behind your vehicle to warn others

**Q. 398***Mark one answer*

You are driving downhill. There is a car parked on the other side of the road. Large, slow lorries are coming towards you. You should

- a. keep going because you have the priority
- b. slow down and give way
- c. speed up and get past quickly
- d. pull over on the right behind the parked car

**Q. 399***Mark one answer*

The DSA publication 'the official driving test' makes reference to vehicles with left-hand drive. Particular emphasis is made of the need to exercise special care and

- a. make the fullest use of the mirrors
- b. give signals earlier
- c. position the vehicle further to the left
- d. position the vehicle further to the right

**Q. 400***Mark one answer*

You are driving along in a stream of traffic closely followed by another vehicle. You should

- a. increase the distance between your vehicle and the one behind you
- b. increase the distance between your vehicle and the one in front of you
- c. keep both distances as they are
- d. flash your brake lights and slow down

**Q. 401***Mark one answer*

You keep well back while waiting to overtake a large vehicle. A car fills the gap. You should

- a. sound your horn
- b. drop back further
- c. flash your headlights
- d. start to overtake

**Q. 402***Mark one answer*

You intend to take an exit to the right at a roundabout. You should signal to leave

- a. immediately on entering the roundabout
- b. in good time on approach to the roundabout
- c. after passing the exit before the one you intend to take
- d. when entering the exit you wish to take

**Q. 403***Mark one answer*

You see a pedestrian with a white stick and red band. This means that the person is

- a. physically disabled
- b. deaf only
- c. blind only
- d. deaf and blind

**Q. 404***Mark one answer*

When snow is falling heavily you should

- a. drive provided you use your headlights
- b. not drive unless you have a mobile phone
- c. drive only when your journey is short
- d. not drive unless it is essential

**Q. 405***Mark one answer*

You feel drowsy when driving. You should

- a. stop and rest as soon as possible
- b. turn the heater up to keep you warm and comfortable
- c. close the car windows to help you concentrate
- d. continue with your journey but drive more slowly

**Q. 406***Mark one answer*

You are leaving a motorway, on a slip road, after a period of fast driving. Your speed is likely to be

- a. slower than you think
- b. approximately what you think
- c. faster than you think
- d. about right for the situation

**Q. 407***Mark one answer*

If you are dazzled by headlights on a motorway and need to slow down you are advised to

- a. not brake too hard
- b. use the footbrake in a pulsating movement
- c. brake firmly and move to a lane on the left
- d. pull up on the hard shoulder

**Q. 408***Mark one answer*

Areas of the road painted with white diagonal stripes or white chevrons guide traffic into separate streams or protect traffic turning right. The Highway Code advises drivers

- a. that they may drive over these areas only if they wish to overtake
- b. not to cross or straddle such areas in any circumstances
- c. not to enter the area unless it is necessary and you can see that it is safe to do so
- d. that this is a safe place to pass

**Q. 409***Mark one answer*

When other drivers flash their headlights at you it means

- a. that there is a radar speed trap ahead
- b. that they are giving way to you
- c. that they are warning you of their presence
- d. that there is something wrong with your vehicle

**Q. 410***Mark one answer*

While you are driving in fog, it becomes necessary to use front fog lights. You should

- a. only turn them on in heavy traffic conditions
- b. remember not to use them on motorways
- c. only use them with dipped headlights
- d. remember to switch them off as visibility improves

**Q. 411***Mark one answer*

Where on a motorway would you find green reflective studs?

- a. Separating driving lanes
- b. Between the hard shoulder and the carriageway
- c. At slip road entrances and exits
- d. Between the carriageway and the central reservation

**Q. 412***Mark one answer*

When teaching a pupil to stop you should teach them that

- a. second gear should always be selected
- b. a downward gear change should be made
- c. a gear change is not always necessary
- d. first gear should always be selected

**Q. 413***Mark one answer*

As you approach a pelican crossing the lights change to green. Elderly people are halfway across. You should

- a. wave them to cross as quickly as they can
- b. rev your engine to make them hurry
- c. flash your lights in case they have not heard you
- d. wait because they will take longer to cross

**Q. 414***Mark one answer*

Whilst driving, the fog clears and you can see more clearly. You must remember to

- a. switch off the fog lights
- b. reduce your speed
- c. switch off the demister
- d. close any open windows

**Q. 415***Mark one answer*

Which of the following types of crossing can detect when people are on them?

- a. Pelican
- b. Toucan
- c. Zebra
- d. Puffin

**Q. 416***Mark one answer*

You are following a long vehicle. It approaches a crossroads and signals left, but moves out to the right. You should

- a. get closer in order to pass it quickly
- b. stay well back and give it room
- c. assume the signal is wrong and it is really turning right
- d. overtake as it starts to slow down

**Q. 417***Mark one answer*

Where are you most likely to be affected by a side wind?

- a. On a narrow country lane
- b. On an open stretch of road
- c. On a busy stretch of road
- d. On a long, straight road

**Q. 418**

*Mark one answer*

You are driving along a country road. A horse and rider are approaching. What should you do?

- a. Increase your speed
- b. Sound your horn
- c. Flash your headlights
- d. Drive slowly past
- e.

**Q. 419**

*Mark one answer*

In a convex mirror compared to a flat one, following vehicles seem to be

- a. nearer
- b. clearer
- c. further away
- d. driving slower

**Q. 420**

*Mark one answer*

You must NOT sound your horn

- a. between 10 pm and 6 am in a built-up area
- b. at any time in a built-up area
- c. between 11.30 pm and 7 am in a built-up area
- d. between 11.30 pm and 6 am on any road

**Q. 421**

*Mark one answer*

You get a puncture on the motorway. You manage to get your vehicle onto the hard shoulder. You should

- a. change the wheel yourself immediately
- b. use the emergency telephone and call for assistance
- c. try to wave down another vehicle for help
- d. only change the wheel if you have a passenger to help you

**Q. 422**

*Mark one answer*

An injured motorcyclist is lying unconscious in the road. You should

- a. remove the safety helmet
- b. seek medical assistance
- c. move the person off the road
- d. remove the leather jacket

**Q. 423**

*Mark one answer*

The right-hand lane of a three-lane motorway is

- a. for lorries only
- b. an overtaking lane
- c. the right-turn lane
- d. an acceleration lane

**Q. 425**

*Mark one answer*

You are driving on a motorway. You have to slow down quickly due to a hazard. You should

- a. switch on your hazard lights
- b. switch on your headlights
- c. sound your horn
- d. flash your headlights

**Q. 426**

*Mark one answer*

Before overtaking a large vehicle you should keep well back. Why is this?

- a. To give acceleration space to overtake quickly on blind bends
- b. To get the best view of the road ahead
- c. To leave a gap in case the vehicle stops and rolls back
- d. To offer other drivers a safe gap if they want to overtake you

**Q. 427**

*Mark one answer*

Your doctor has given you a course of medicine. Why should you ask how it would affect you?

- a. Drugs make you a better driver by quickening your reactions
- b. You will have to let your insurance company know about the medicine
- c. Some types of medicine can cause your reactions to slow down
- d. The medicine you take may affect your hearing

**Q. 428**

*Mark one answer*

You have to make a journey in fog. What are the most important things you should do before you set out?

- a. Top up the radiator with antifreeze
- b. Make sure that you have a warning triangle in the vehicle
- c. Make sure that the windows are clean and your lights are working
- d. Check the battery is fully charged

**Q. 429**

*Mark one answer*

When leaving your car unattended for a few minutes you should

- a. leave the engine running
- b. switch the engine off but leave the key in
- c. lock it and remove the key
- d. park near a traffic warden

**Q. 430**

*Mark one answer*

What must be done if you wish to accompany your candidate on test?

- a. You must apply to the booking section
- b. You must ask the examiner
- c. The candidate must ask the examiner
- d. The examiner must invite you

**Q. 431**

*Mark one answer*

The presence of street lights on a road normally indicates a speed limit of

- a. 30 mph
- b. 40 mph
- c. 50 mph
- d. 70 mph

**Q. 432**

*Mark one answer*

At the end of a Driving Test an Instructor is advised to

- a. request a personal written report
- b. keep out of sight
- c. request a separate debrief
- d. attend the debrief whenever possible

**Q. 433**

*Mark one answer*

Which of the following is most likely to waste fuel?

- a. Reducing your speed
- b. A fitted, empty roof rack
- c. Using the wrong grade of fuel
- d. Using different brands of fuel

**Q. 434**

*Mark one answer*

On areas of the road painted with white diagonal stripes surrounded by a broken white line, you should

- a. not enter the area, even though you can see that it is safe to do so
- b. not enter the area until the diagonal stripes cease
- c. not enter the area unless it is necessary and you can see it is safe to do so
- d. enter the area if there is no oncoming traffic

**Q. 436**

*Mark one answer*

Who is responsible for making sure that a vehicle is not overloaded?

- a. The driver of the vehicle
- b. The owner of the items being carried
- c. The person who loaded the vehicle
- d. The licensing authority

**Q. 437**

*Mark one answer*

Why are mirrors often slightly curved (convex)?

- a. They give a wider field of vision
- b. They totally cover blind spots
- c. They make it easier to judge the speed of following traffic
- d. They make following traffic look bigger

**Q. 438**

*Mark one answer*

If another vehicle is taking a long time to overtake yours, you should

- a. accelerate to allow sufficient room for it to move back to the left
- b. be prepared to slow down, if necessary
- c. continue at the same speed
- d. ignore the other vehicle

**Q. 439**

Mark one answer

Chains can be fitted to your vehicle to help prevent

- a. damage to the road surface
- b. wear to the tyres
- c. skidding in deep snow
- d. the brakes locking

**Q. 440**

Mark one answer

Excessive or uneven tyre wear can be caused by

- a. the gearbox
- b. wheel alignment
- c. the accelerator
- d. the exhaust system

**Q. 441**

Mark one answer

You are on a motorway in fog. The left-hand edge of the motorway can be identified by reflective studs. What colour are they?

- a. Green
- b. Amber
- c. Red
- d. White

**Q. 442**

Mark one answer

At a junction you see an octagonal sign partly covered by snow. What does it mean?

- a. Crossroads
- b. Give way
- c. Stop
- d. Turn right

**Q.443**

Mark one answer

The 'turn in the road' manoeuvre should be completed

- a. in no more than three movements and without touching the kerb
- b. with reasonable accuracy and only when there are no other road users in view
- c. with as few moves as possible taking effective observations
- d. with as few moves as possible when there are no other road users in view

**Q. 444**

Mark one answer

When driving in fog high intensity rear lights should only be used when visibility is

- a. 100 metres (328 feet) or less
- b. 125 metres (408 feet) or less
- c. 150 metres (490 feet) or less
- d. 175 metres (572 feet) or less

**Q. 445**

Mark one answer

Fluorescent green/yellow reflective studs are normally used to mark the carriageway

- a. at contra flow systems and road works
- b. at slip road exits and entrances
- c. between the edge of the carriageway and the central reservation
- d. between the lanes

**Q. 447**

Mark one answer

Where there are two lanes at the entrance to a roundabout, unless signs or road markings indicate otherwise, a driver going ahead should normally

- a. approach in the left-hand lane if it is clear and keep to that lane in the roundabout
- b. always approach in the left-hand and use the right-hand lane in the roundabout
- c. take the right-hand lane and change to the left-hand lane in the roundabout
- d. take the right-hand lane and stay in that lane

**Q. 448**

Mark one answer

A candidate has passed the 'L' test and is applying for a full licence. Where should they send the pass certificate to?

- a. The Driving Standards Agency
- b. The local Driving Test Centre
- c. The DVLA Swansea
- d. The Vehicle Inspectorate office

**Q. 449**

Mark one answer

Higher tyre pressures than normal are an advantage when driving

- a. at high speeds over long distances
- b. on very rough roads
- c. a car towing a trailer
- d. a car fitted with a roof rack

**Q. 450**

Mark one answer

You are on a long, downhill slope. What should you do to help control the speed of your vehicle?

- a. Select neutral
- b. Select a lower gear
- c. Grip the handbrake firmly
- d. Apply the parking brake gently

**Q. 451**

Mark one answer

You are leaving your vehicle parked on a road. When may you leave the engine running?

- a. If you will be parked for less than five minutes
- b. If the battery is flat
- c. When in a 20 mph zone
- d. Not on any occasion

**Q. 453**

Mark one answer

At an accident you suspect a casualty has back injuries. The area is safe. You should

- a. offer them a drink
- b. not move them
- c. raise their legs
- d. offer them a cigarette

**Q. 454**

Mark one answer

Your vehicle pulls to one side when braking. You should

- a. change the tyres around
- b. consult your garage as soon as possible
- c. pump the pedal when braking
- d. use your handbrake at the same time

**Q. 455**

Mark one answer

If someone taking the driving test cannot meet the eyesight requirements, they will

- a. fail the test at once and not be asked to drive
- b. have the test cancelled
- c. have the test postponed
- d. be allowed to continue the test

**Q. 456**

Mark one answer

In daylight, an approaching motorcyclist is using a dipped headlight. Why?

- a. So that the rider can be seen more easily
- b. To stop the battery overcharging
- c. To improve the rider's vision
- d. The rider is inviting you to proceed

**Q. 457**

Mark one answer

Why could keeping the clutch down or selecting neutral for long periods of time be dangerous?

- a. Fuel spillage will occur
- b. Engine damage may be caused
- c. You will have less steering and braking control
- d. It will wear tyres out more quickly

**Q. 458**

Mark one answer

You wish to go ahead at a crossroads controlled by a police officer. What is the arm signal you would give to inform them of your intentions?

- a. Right-hand held up behind the windscreen palm forwards
- b. Right arm out of the driver's window with the forearm raised and the hand held up
- c. Left-hand held up behind the windscreen palm forwards
- d. No signal is necessary to go ahead

**Q. 459**

*Mark one answer*

You want to turn right from a junction but your view is restricted by parked vehicles. What should you do?

- Move out quickly, but prepared to stop
- Sound your horn and pull out if there is no reply
- Stop, then move slowly forward until you have a clear view
- Stop, get out and have a look along the main road to check

**Q. 461**

*Mark one answer*

When joining a motorway you must always

- use the hard shoulder
- stop at the end of the acceleration lane
- come to a stop before joining the motorway
- give way to traffic already on the motorway

**Q. 462**

*Mark one answer*

The Highway Code advises that, unless road markings indicate otherwise, when you are going straight on in a 'One-way' street you should use

- the left-hand lane
- the most appropriate lane
- take a centre lane where room permits
- drive in any lane

**Q. 463**

*Mark one answer*

You are driving at night. You must use your headlights if street lights are further apart than

- 125 metres (408 feet)
- 145 metres (474 feet)
- 165 metres (540 feet)
- 185 metres (605 feet)

**Q. 464**

*Mark one answer*

An MOT certificate is normally valid for

- three years after the date it was issued
- 10,000 miles
- one year after the date it was issued
- 30,000 miles

**Q. 465**

*Mark one answer*

You are entering an area of road works. There is a temporary speed limit displayed. You must

- not exceed the speed limit
- obey the limit only during rush hour
- accept the speed limit only as advisable
- obey the limit except for overnight

**Q. 466**

*Mark one answer*

A pupil who is colour blind

- must have a doctor's certificate allowing them to drive
- is allowed to drive without restriction
- is not legally allowed to drive
- must have glasses with special lenses

**Q. 467**

*Mark one answer*

What colour are the reflective studs between a motorway and its slip road?

- Amber
- White
- Green
- Red

**Q. 468**

*Mark one answer*

You are driving on a lit motorway at night. You would normally

- always use sidelights
- always use headlights
- be able to decide whether to use headlights
- always use high intensity rear lights

**Q. 469**

*Mark one answer*

Which of the following should you do before stopping?

- Sound the horn
- Use the mirrors
- Select a higher gear
- Flash your headlights

**Q. 470**

*Mark one answer*

When should you use hazard warning lights?

- When you are doubled parked on a two-way road
- When your direction indicators are not working
- When warning oncoming traffic that you intend to stop
- When your vehicle has broken down and is causing an obstruction

**Q. 471**

*Mark one answer*

You are signalling to turn right in busy traffic. How would you safely reinforce your intention to turn?

- sound your horn
- give an arm signal
- flash your headlights
- position over the centre line

**Q. 472**

*Mark one answer*

The cost of your insurance may be reduced if

- your car is large and powerful
- you are using the car for work purposes
- you have penalty points on your licence
- you are over 25 years old

**Q. 473**

*Mark one answer*

In which one of the following situations may you use hazard warning lights?

- When you want to park on double yellow lines
- If you are slowing down on a two way, national speed limit road
- On a motorway to warn following traffic of a hazard ahead
- When you have to partially block the pavement

**Q. 474**

*Mark one answer*

You are going to descend a long steep hill. You should

- reduce speed and engage a low gear before beginning the descent
- change down to a lower gear to reduce speed then apply the footbrake
- use the footbrake and when the gradient increases change to a higher gear
- reduce speed and engage a higher gear before beginning the descent

**Q. 476**

*Mark one answer*

Your vehicle has a catalytic converter. Its purpose is to reduce

- exhaust noise
- fuel consumption
- exhaust emissions
- engine noise

**Q. 477**

*Mark one answer*

The main cause of brake fade is

- the brakes overheating
- air in the brake fluid
- oil on the brakes
- the brakes out of adjustment

**Q. 478**

*Mark one answer*

A full car licence is normally valid until your

- 60<sup>th</sup> birthday
- 65<sup>th</sup> birthday
- 70<sup>th</sup> birthday
- 75<sup>th</sup> birthday

**Q. 479**

*Mark one answer*

When may you sound the horn?

- To give you right of way
- To attract a friend's attention
- To warn others of your presence
- To make slower drivers move over

**Q. 480**

*Mark one answer*

After a breakdown you need to rejoin the main carriageway of a motorway from the hard shoulder. You should

- move out onto the carriageway then build up your speed
- move out onto the carriageway using your hazard lights
- gain speed on the hard shoulder before moving out onto the carriageway
- wait on the hard shoulder until someone flashes their headlights at you

**Q. 481**

*Mark one answer*

You are driving a car fitted with automatic transmission. It is acceptable to use a foot on each pedal when

- travelling along in busy traffic
- going down a steep hill
- manoeuvring in a tight space
- doing an emergency stop

**Q. 482**

*Mark one answer*

What is the national speed limit on a single carriageway road for cars and motorcycles?

- 70 mph
- 60 mph
- 50 mph
- 30 mph

**Q. 483**

*Mark one answer*

When you apply to renew your vehicle excise licence (tax disc) you must produce

- a valid insurance certificate
- the old tax disc
- the vehicle handbook
- a valid driving licence

**Q. 484**

*Mark one answer*

In areas where there are 'traffic calming' measures you should

- drive at a reduced speed
- always drive at the speed limit
- position in the centre of the road
- only slow down if pedestrians are near

**Q. 485**

*Mark one answer*

At an accident a small child is not breathing. When giving mouth to mouth you should breathe

- sharply
- gently
- heavily
- rapidly

**Q. 486**

*Mark one answer*

You are travelling at night. You are dazzle by headlights coming towards you. You should

- pull down your sun visor
- slow down or stop
- switch on your main beam headlights
- put your hand over your eyes

**Q. 487**

*Mark one answer*

You are waiting at a T-junction. A vehicle is coming from the right with the left signal flashing. What should you do?

- Move out and accelerate hard
- Wait until the vehicle starts to turn in
- Pull out before the vehicle reaches the junction
- Move out slowly

**Q. 488**

*Mark one answer*

Learner drivers in a car must be supervised by someone who is

- over 18 and who has held a full licence for that category of vehicle for 1 year
- over 21 and who has held a full licence for that category of vehicle for at least 3 years
- over 21 and who has held a full licence for that category of vehicle for 1 year
- over 25 and has held a full licence for that category for 3 years

**Q. 489**

*Mark one answer*

You are driving along a dual carriageway and have to apply the brakes. The main force of braking is

- evenly distributed between the front and rear wheels
- on the rear wheels
- on the front wheels
- evenly distributed side to side

**Q. 491**

*Mark one answer*

You have to drive through floodwater. You should drive

- very slowly in first gear keeping the engine speed very low
- very slowly in first gear keeping the engine speed high
- through as quickly as possible
- through quickly with your foot on the brake

**Q. 493**

*Mark one answer*

The shortest overall stopping distance for a car on a dry road at 70 mph is

- 73 metres (240 feet)
- 88 metres (287 feet)
- 96 metres (315 feet)
- 105 metres (355 feet)

**Q. 494**

*Mark one answer*

If you have to drive through floodwater you should

- drive very slowly in first gear keeping the engine speed high
- drive very slowly in first gear keeping the engine speed very low
- drive through slowly in 3<sup>rd</sup> gear slipping the clutch
- drive through very quickly in a high gear slipping the clutch

**Q. 495**

*Mark one answer*

You are approaching a roundabout. There are horses just ahead of you. You should

- be prepared to stop
- treat them like any other vehicle
- sound your horn as a warning
- accelerate past as quickly as possible

**Q. 496**

*Mark one answer*

A bus lane that does not have times of operation shown can be used by cars

- during the hours of daylight
- only when it is clear of buses
- at no time, at all
- when other cars are using it

**Q. 497**

*Mark one answer*

You are parking a vehicle, with manual transmission, at the nearside kerb facing downhill. You should leave the front wheels

- turned to the left, and leave in reverse gear with the handbrake firmly on
- turned to the right, and leave in reverse gear with the handbrake firmly on
- straight, and with the handbrake firmly on
- turned to the left and leave in 1<sup>st</sup> gear with the handbrake firmly on

**Q. 498**

*Mark one answer*

You are on a three-lane motorway. There are red reflective studs on your left and white ones to your right. Where are you?

- In the right-hand lane
- In the middle lane
- On the hard shoulder
- In the left-hand lane

**Q. 499**

*Mark one answer*

You park overnight on a road with a 40 mph speed limit. You should

- park facing the traffic
- park with parking lights on
- park with dipped headlights on
- park near a street light

**Q. 500**

*Mark one answer*

You are invited to a pub lunch. You know that you will have to drive in the evening. What is your best course of action?

- Avoid mixing your alcoholic drinks
- Not drink any alcohol at all
- Have some milk before drinking alcohol
- Eat a hot meal with your alcoholic drinks

## Q. 501

Mark one answer

Before moving off a driver's final action should be to

- a. look around
- b. give a signal
- c. use the mirrors
- d. engage 1<sup>st</sup> gear

## Q. 502

Mark one answer

You should inform your pupil that during the 'Turn in the road' exercise they should complete the manoeuvre

- a. in three movements without touching the kerb
- b. with as few moves as possible taking into account the size of the vehicle and the width of the road
- c. in three movements but touching the kerb would not necessarily mean a failure
- d. as quickly as possible in three movements

## Q. 503

Mark one answer

How should you overtake horse riders?

- a. Drive up close and overtake as soon as possible
- b. Speed is not important but allow plenty of room
- c. Use your horn just once to warn them
- d. Drive slowly and leave plenty of room

## Q. 504

Mark one answer

When driving which of the following will help the environment?

- a. Watching the traffic and planning ahead
- b. Driving on over-inflated tyres
- c. Using the choke for as long as possible on a cold engine
- d. Braking as late as possible without skidding

## Q. 505

Mark one answer

A crawler lane on a motorway is found

- a. on a steep gradient
- b. before a service area
- c. before a junction
- d. along the hard shoulder

## Q. 506

Mark one answer

It is illegal to drive with tyres that

- a. have been bought second-hand
- b. have a large deep cut in the side wall
- c. are of different makes
- d. are of different tread patterns

## Q. 507

Mark one answer

You are on a wet motorway with surface spray. You should use

- a. hazard flashers
- b. dipped headlights
- c. rear fog lights
- d. sidelights

## Q. 508

Mark one answer

A successful candidate should apply for a full licence within

- a. 6 months
- b. 2 years
- c. 5 years
- d. 10 years

## Q. 509

Mark one answer

At toucan crossings

- a. there is no flashing amber light
- b. cyclists are not permitted
- c. there is a continuously flashing amber beacon
- d. you only stop if someone is waiting to cross

## Q. 510

Mark one answer

At the start of a driving test a candidate finds that their inertia reel seat belt has temporarily locked and they cannot put it on, they should

- a. carry on with the test without a seat belt
- b. ask the examiner to postpone the test and seek a further appointment
- c. put it on as soon as the belt is released
- d. ignore it and fit it sometime later

## Q. 511

Mark one answer

Generally the camber of the road is the angle at which

- a. the road normally slopes to the centre to help steering on the bend
- b. the road slopes away to help drainage
- c. you measure the steepness of the hill
- d. the road bends to the left or right

## Q. 512

Mark one answer

It is very windy. You are about to overtake a motorcyclist. You should

- a. overtake slowly
- b. allow extra room
- c. sound your horn
- d. keep close as you pass

## Q. 513

Mark one answer

You are driving along a motorway in heavy rain; there are a large number of LGVs in front of you. You should

- a. allow at least a two-second gap
- b. move left and drive on the hard shoulder
- c. move right and stay in the right-hand lane
- d. be aware of spray reducing your vision

## Q. 515

Mark one answer

When leaving a motorway many drivers fail to realise how fast they are going. This situation can be avoided if

- a. when they leave the motorway they check that their speed is below the speed of vehicles in the left-hand lane
- b. as they enter the slip road they check their speed by glancing at the speedometer
- c. they maintain their speed until close to the junction
- d. they always use the gears to assist in the reduction of speed

## Q. 516

Mark one answer

There are hatched markings in the centre of the road, surrounded by broken lines. When can you enter them?

- a. Only in an emergency
- b. Never under any circumstances
- c. When necessary and you can see it is safe to do so
- d. Only to overtake large vehicles

## Q. 517

Mark one answer

You are driving on a motorway. The car ahead shows its hazard lights for a short time. This tells you that

- a. the driver wants you to overtake
- b. the other car is going to change lanes
- c. traffic ahead is slowing or stopping suddenly
- d. there is a police speed check ahead

## Q. 519

Mark one answer

Extra care should be taken when refuelling, because diesel fuel when spilt is

- a. sticky
- b. odourless
- c. clear
- d. slippery

## Q. 520

Mark one answer

Your indicators may be difficult to see in bright sunlight. What should you do?

- a. Put your indicator on earlier
- b. Give an arm signal as well as using your indicator
- c. Touch the brake several times to show the stop lights
- d. Turn as quickly as you can

**Q. 521**

*Mark one answer*

Colour-blind drivers are able to distinguish between red and amber flashing lights at hazards such as level crossings because red lights flash

- a. diagonally
- b. from top to bottom
- c. from side to side
- d. together

**Q. 522**

*Mark one answer*

When driving in traffic lanes a driver should drive

- a. well to the left of the lane
- b. well to the right of the lane
- c. in the centre of the lane
- d. anywhere within the lane

**Q. 523**

*Mark one answer*

You are driving in traffic at the speed limit for the road. The driver behind is trying to overtake. You should

- a. move closer to the car ahead, so the driver behind has no room to overtake
- b. wave the driver behind to overtake when it is safe
- c. keep a steady course and allow the driver behind to overtake
- d. accelerate to get away from the driver behind

**Q. 525**

*Mark one answer*

An advantage of a dual braking system on a car is that it

- a. reduces the likelihood of complete brake failure
- b. provides more efficient braking
- c. improves 'brake fade' qualities
- d. makes the brakes more sensitive

**Q. 526**

*Mark one answer*

Tyres on cars, light vans and their trailers must have a continuous tread depth of at least 1.6 millimetres

- a. across the centre three-quarters of the width of the tyre
- b. across at least half of the width of the tyre
- c. throughout the width of the tyre
- d. across the outside half of the tyre

**Q. 527**

*Mark one answer*

You break down on a dual carriageway. A red warning triangle should be placed behind the vehicle at a distance of

- a. 45 metres (147 feet)
- b. 90 metres (294 feet)
- c. 125 metres (408 feet)
- d. 150 metres (490 feet)

**Q. 528**

*Mark one answer*

You are following a vehicle on a wet road. You should leave a time gap of at least

- a. one second
- b. two seconds
- c. three seconds
- d. four seconds

**Q. 529**

*Mark one answer*

Approaching a pelican crossing you see a flashing amber light. You should

- a. wave waiting pedestrians to cross
- b. always wait for the green light to appear, then drive on
- c. give way to pedestrians still crossing, then proceed
- d. always proceed across the crossing

**Q. 531**

*Mark one answer*

You have just passed your test. How can you decrease your risk of accidents on the motorway?

- a. By keeping up with the car in front
- b. By never going over 40 mph
- c. By staying only in the left-hand lane
- d. By taking further training

**Q. 534**

*Mark one answer*

What type of emergency vehicle is fitted with a green flashing beacon?

- a. Fire engine
- b. Road gritter
- c. Ambulance
- d. Doctor's car

**Q. 536**

*Mark one answer*

During a long journey you discover the coolant in the vehicle radiator needs topping up. You should

- a. hose down the engine to cool it before refilling
- b. let it cool before removing the filler cap
- c. keep the engine running and fill it with coolant immediately
- d. fill it with antifreeze

**Q. 539**

*Mark one answer*

When driving at night where street lamps are more than 200 metres (657 feet) apart a driver should normally use

- a. full beam headlights
- b. sidelights only, unless the visibility is poor
- c. dipped headlights
- d. fog lights

**Q. 540**

*Mark one answer*

You are approaching a left-hand bend. You should position your vehicle

- a. where you get the best view
- b. towards the centre of the road
- c. towards the right of your lane
- d. in the centre of your lane

**Q. 541**

Mark one answer

The purpose of a catalytic converter is to reduce

- a. fuel consumption
- b. the risk of fire
- c. toxic exhaust gases
- d. engine wear

**Q. 542**

Mark one answer

Why should you look particularly for motorcyclists and cyclists at junctions?

- a. They may want to turn into the side road
- b. They may slow down to let you turn
- c. They are harder to see
- d. They might not see you turn

**Q. 543**

Mark one answer

Circular traffic signs give orders. Those that give a positive instruction and are mandatory are coloured

- a. red
- b. red and blue
- c. blue
- d. red and white

**Q. 544**

Mark one answer

You are reversing your vehicle into a side road. When would the greatest hazard to passing traffic occur?

- a. After you've completed the manoeuvre
- b. Just before you actually begin to manoeuvre
- c. After you've entered the side road
- d. When the front of your vehicle swings out

**Q. 545**

Mark one answer

When must you show your motor insurance certificate?

- a. When you are taking your driving test
- b. When buying or selling a vehicle
- c. When having a MOT inspection
- d. When you are taxing your vehicle

**Q. 546**

Mark one answer

The permissible Maximum Authorised Mass of a Category B vehicle used for an 'L' test is

- a. 3.0 tonnes
- b. 3.5 tonnes
- c. 5.0 tonnes
- d. 7.5 tonnes

**Q. 547**

Mark one answer

You cannot see clearly behind when reversing. What should you do?

- a. Open your window to look behind
- b. Open the door and look behind
- c. Look in the nearside mirror
- d. Ask someone to guide

**Q. 548**

Mark one answer

You arrive at an accident. A motorcyclist is unconscious. Your FIRST priority is the casualty's

- a. breathing
- b. bleeding
- c. broken bones
- d. bruising

**Q. 549**

Mark one answer

A white cane with a red band shows that the person carrying it is

- a. deaf and without speech
- b. blind and deaf
- c. blind and without speech
- d. deaf and without speech

**Q. 550**

Mark one answer

Emergency telephones are normally situated along the hard shoulder of a motorway every

- a. half a mile
- b. one mile
- c. two miles
- d. three miles

**Q. 551**

Mark one answer

Where may you overtake on a one-way street?

- a. Only on the left-hand side
- b. Overtaking is not allowed
- c. Only on the right-hand side
- d. Either on the right or the left

**Q. 552**

Mark one answer

Some two-way roads are divided into three lanes. Why are these particularly dangerous?

- a. Traffic in both directions can use the middle lane to overtake
- b. Traffic can travel faster in poor weather conditions
- c. Traffic can overtake on the left
- d. Traffic uses the middle lane for emergencies only

**Q. 553**

Mark one answer

A friend wants to teach you to drive a car. They must

- a. be over 21 and have held a full licence for at least two years
- b. be over 18 and hold an advanced driver's certificate
- c. be over 18 and have fully comprehensive insurance
- d. be over 21 and have held a full licence for at least three years

**Q. 554**

Mark one answer

You are trying to move off on snow. You should use

- a. the lowest gear you can
- b. the highest gear you can
- c. a high engine speed
- d. the handbrake and footbrake together

**Q. 555**

Mark one answer

What colour are the reflective studs between the lanes on a motorway?

- a. Green
- b. Amber
- c. White
- d. Red

**Q. 556**

Mark one answer

The correct sequence of checks known as the 'Cockpit Drill' is

- a. seat (inc. head restraint) – seat belt – mirrors – doors – fuel
- b. doors – seat (inc. head restraint) – mirrors – seat belt – fuel
- c. mirrors – seat belt – doors – seat (inc. head restraint) – fuel
- d. seat belt – seat (inc. head restraint) – mirrors – doors – fuel

**Q. 557**

Mark one answer

What should you use the hard shoulder of a motorway for?

- a. Stopping in an emergency
- b. Leaving the motorway
- c. Stopping when you are tired
- d. Joining the motorway

**Q. 558**

Mark one answer

Instruction given in short progressive steps is likely to lead to

- a. a sense of boredom by the pupil
- b. sustained interest from the pupil
- c. a lack of co-ordination in driving the vehicle
- d. the completion of the lessons in a shorter time

**Q. 559**

Mark one answer

On a driving test while starting off uphill, the candidate stalls the car. The examiner will record the fault on the driving test report in the heading

- a. move away under control
- b. make proper use of the clutch
- c. make proper use of the clutch and handbrake
- d. move away safely

**Q. 560**

Mark one answer

Hazard warning lights should be used when vehicles are

- a. broken down and causing an obstruction
- b. faulty and moving slowly
- c. being towed along a road
- d. reversing into a side road

**Q. 561**

Mark one answer

A long, heavily laden lorry is taking a long time to overtake you. What should you do?

- a. Speed up
- b. Slow down
- c. Hold your speed
- d. Change direction

**Q. 562***Mark one answer*

At crossroads there are no signs or road markings. Two vehicles approach. Which has priority?

- a. Neither of the vehicles
- b. The vehicle travelling the fastest
- c. Oncoming vehicles turning right
- d. Vehicles approaching from the right

**Q. 563***Mark one answer*

When aquaplaning you have no control over

- a. the steering and brakes
- b. the brakes only
- c. the steering only
- d. the washers and wipers

**Q. 564***Mark one answer*

If a tyre bursts when driving you should

- a. change to a lower gear and hold the steering wheel very firmly until the car has stopped
- b. brake firmly and steer straight ahead
- c. hold the steering wheel very firmly and let the car roll to a safe stopping place
- d. brake firmly and steer to the left

**Q. 565***Mark one answer*

At night you must not park on the right-hand side of the road except in a

- a. one-way street
- b. built-up area and at least 10 metres (32 feet) from a junction
- c. built-up area with street lighting
- d. two way street

**Q. 566***Mark one answer*

On a motorway if there is a red cross with flashing red lights on the gantry above your lane you should

- a. move to another lane and stop
- b. leave the motorway by the next exit
- c. not go beyond the signal in that lane
- d. slow down to 50 mph

**Q. 567***Mark one answer*

Anti-lock brakes will take effect when

- a. you do not brake quickly enough
- b. excessive brake pressure has been applied
- c. you have not seen a hazard ahead
- d. speeding on slippery road surfaces

**Q. 568***Mark one answer*

You are coming to a roundabout. A cyclist positioned to the left is signalling to turn right. What should you do?

- a. Overtake on the right
- b. Give a horn warning
- c. Signal the cyclist to move across
- d. Give the cyclist plenty of room

**Q. 569***Mark one answer*

On a three-lane motorway which lane should you normally use?

- a. Left
- b. Right
- c. Centre
- d. Either the right or centre

**Q. 570***Mark one answer*

It is a driver's responsibility to ensure that the front seat passenger wears a seat belt if the passenger is under

- a. 14 years old
- b. 15 years old
- c. 16 years old
- d. 18 years old

**Q. 571***Mark one answer*

If when applying the footbrake, your car pulls to the left, the most likely cause is that the

- a. right-hand brakes are inefficient
- b. left-hand brakes are inefficient
- c. road surface is uneven
- d. the wheels need balancing

**Q. 572***Mark one answer*

An accident has just happened. An injured person is lying in a busy road. What is the FIRST thing you should do to help?

- a. Treat the person for shock
- b. Warn other traffic
- c. Place them in the recovery position
- d. Make sure the injured person is kept warm

**Q. 573***Mark one answer*

Your pupil is carrying out the 'left reverse' exercise. After entering the side road they should

- a. continue to reverse for some distance keeping reasonably close to the kerb
- b. continue to drive in reverse gear until asked to stop by the examiner
- c. reverse just far enough to allow them to pullout and go in the opposite direction
- d. continue to reverse for some distance keeping well away from the kerb

**Q. 574***Mark one answer*

You want to turn right from a main road into a side road. Just before turning right you should

- a. cancel your right-turn signal
- b. select first gear
- c. check for traffic overtaking on your right
- d. stop and set the handbrake

**Q. 575***Mark one answer*

During the driving test a candidate makes a smooth direct gear change from 4<sup>th</sup> to 2<sup>nd</sup> gear. The examiner observing this action would assess this as being

- a. satisfactory
- b. a driving fault
- c. poor use of gears
- d. a serious fault

**Q. 576***Mark one answer*

A driving test pass certificate is valid for a maximum period of

- a. 1 year
- b. 2 years
- c. 3 years
- d. 10 years

**Q. 577***Mark one answer*

Your mobile phone rings while you are driving. You should

- a. stop immediately
- b. pull up in a suitable place
- c. answer it immediately
- d. pull up at the nearest kerb

**Q. 578***Mark one answer*

When may you stop on a motorway?

- a. If you have to read a map
- b. When you are tired and need a rest
- c. If red lights show above every lane
- d. If your mobile phone rings

**Q. 579***Mark one answer*

You are driving a car on a motorway. Unless signs show otherwise you must NOT exceed

- a. 50 mph
- b. 60 mph
- c. 70 mph
- d. 80 mph

**Q. 580***Mark one answer*

You are driving at night in fog at the speed which you feel is safe and a vehicle following you seems to be too close, you should

- a. continue at the same speed and try to reduce the effects of dazzle
- b. increase your speed slightly to widen the gap and thereby reduce the effects of dazzle
- c. reduce your speed and turn your mirror away so that you cannot see the following vehicle
- d. flash your rear fog lights

**Q. 581***Mark one answer*

A two-second gap between yourself and the car in front is sufficient when conditions are

- a. wet
- b. good
- c. damp
- d. foggy

**Q. 582***Mark one answer*

Your vehicle has been involved in a collision with another vehicle, you must stop and

- a. report the accident to the police as soon as possible, or in any case within the next 7 days
- b. exchange insurance particulars with the other driver
- c. give your name and the owners name and address to anyone having reasonable grounds for requiring them
- d. report the accident to the police within 24 hours

**Q. 584***Mark one answer*

Your car needs an MOT certificate. If you drive without one this could invalidate your

- a. vehicle service record
- b. insurance
- c. road tax disc
- d. vehicle registration document

**Q. 586***Mark one answer*

To correct a rear-wheel skid you should

- a. not steer at all
- b. steer away from it
- c. steer into it
- d. apply your handbrake

**Q. 587***Mark one answer*

You wish to park facing DOWNHILL. You should

- a. turn the front wheels toward the kerb
- b. park close to the bumper of another car
- c. park with two wheels on the kerb
- d. turn the front wheels away from the kerb

**Q. 588***Mark one answer*

You are waiting in a traffic queue at night. To avoid dazzling following drivers you should

- a. apply the handbrake only
- b. apply the footbrake only
- c. switch off your headlights
- d. use both the handbrake and footbrake

**Q. 589***Mark one answer*

The footbrake feels spongy. This would generally indicate

- a. brake fluid on the linings or brake pads
- b. badly adjusted brakes
- c. a leak in the braking system
- d. worn brake pads

**Q. 590***Mark one answer*

On motorways the first early information sign of a junction is usually located

- a. at the first countdown marker
- b. half a mile in advance
- c. at the beginning of the slip road
- d. one mile in advance

**Q. 591***Mark one answer*

You have just driven out of fog. Visibility is now good. You MUST

- a. switch off all your fog lights
- b. keep your rear fog lights on
- c. keep your front fog lights on
- d. leave fog lights on in case fog returns

**Q. 592***Mark one answer*

An examiner gives the signal for an emergency stop. A candidate should react by

- a. braking promptly
- b. checking the mirrors
- c. depressing the clutch
- d. steering to the left

**Q. 593***Mark one answer*

When may you reverse from a side road into a main road?

- a. Only if both roads are clear of traffic
- b. Not at any time
- c. At any time
- d. Only if the main road is clear of traffic

**Q. 595***Mark one answer*

A Toucan crossing is designed for use by

- a. horse riders and cyclists
- b. pedestrians only
- c. cyclists only
- d. cyclists and pedestrians

**Q. 596***Mark one answer*

In an emergency a driver's reaction time may be affected by

- a. the speed of the vehicle
- b. their state of health
- c. the weather and road conditions
- d. the other driver

**Q. 597***Mark one answer*

Motorcyclists often wear bright clothing mainly because

- a. they must do so by law
- b. it helps keep them cool in summer
- c. the colours are popular
- d. drivers often do not see them

**Q. 598***Mark one answer*

There is a police car following you. The police officer flashes the headlights and points to the left. What should you do?

- a. Turn at the next left
- b. Pull up on the left
- c. Stop immediately
- d. Move over to the left

**Q. 599***Mark one answer*

You are on a road that is only wide enough for one vehicle. There is a car coming towards you. What should you do?

- a. Pull into a passing place on your right
- b. Force the other driver to reverse
- c. Pull into a passing place if your vehicle is wider
- d. Pull into a passing place on your left

**Q. 600***Mark one answer*

How will a school crossing patrol signal you to stop?

- a. By pointing to children on the opposite pavement
- b. By displaying a red light
- c. By displaying a stop sign
- d. By giving you an arm signal

**Q. 601***Mark one answer*

Front fog lights may be used ONLY if

- a. your headlights are not working
- b. they are operated with rear fog lights
- c. they were fitted by the vehicle manufacturer
- d. visibility is seriously reduced

**Q. 602***Mark one answer*

The name given to the mental processes such as sensation and thinking is

- a. cognitive
- b. effective
- c. learning transfer
- d. Gestalt

**Q. 603***Mark one answer*

If a pupil fails to respond to positive guidance the instructor should

- a. be patient and continue the well tried methods which are working with other pupils
- b. vary the methods of instruction being used
- c. tell the pupil to drive faster
- d. start from the beginning again

**Q. 605***Mark one answer*

To help the environment, you can avoid wasting fuel by

- a. having your vehicle properly serviced
- b. keeping an empty roof rack properly fitted
- c. servicing your vehicle less regularly
- d. driving at higher speeds where possible

**Q. 606**

*Mark one answer*

You are driving on an icy road. What distance should you drive from the car in front?

- a. Four times the normal distance
- b. Six times the normal distance
- c. Eight times the normal distance
- d. Ten times the normal distance

**Q. 607**

*Mark one answer*

If you position early and maintain a steady course when passing parked vehicles, a signal is normally

- a. only necessary if there is following traffic
- b. not necessary
- c. must always be given
- d. only necessary if there is opposing traffic

**Q. 608**

*Mark one answer*

In some narrow residential streets you will find a speed limit of

- a. 20 mph
- b. 25 mph
- c. 35 mph
- d. 40 mph

**Q. 609**

*Mark one answer*

You are driving a vehicle with automatic transmission. To negotiate corners safely you are advised to

- a. select the number gear position for the speed required and lock it into position/gear
- b. slow down before the corner and then accelerate gently as you turn
- c. use the kick-down facility to select a lower gear
- d. brake gently whilst driving round the corner

**Q. 610**

*Mark one answer*

Before driving anyone else's motor vehicle you should make sure that

- a. the vehicle owner has third party insurance cover
- b. your own vehicle has insurance cover
- c. the vehicle is insured for your use
- d. the owner has left the insurance documents in the vehicle

**Q. 611**

*Mark one answer*

Which of the following types of glasses should NOT be worn when driving at night?

- a. Half-moon
- b. Round
- c. Bi-focal
- d. Tinted

**Q. 612**

*Mark one answer*

You are driving on a dual carriageway. You see a broken down vehicle in the left-hand lane. The first thing you should do is

- a. look in the mirrors
- b. check for road signs
- c. reduce speed
- d. change to a lower gear

**Q. 613**

*Mark one answer*

You want to turn right at a box junction. There is oncoming traffic. You should

- a. wait in the box junction if your exit is clear
- b. wait before the junction until it is clear of all traffic
- c. drive on, you cannot turn right at a box junction
- d. drive slowly into the box junction when signalled by oncoming traffic

**Q. 614**

*Mark one answer*

You are going straight ahead at a roundabout. How should you signal?

- a. Signal right on the approach and then left to leave the roundabout
- b. Signal left as you leave the roundabout
- c. Signal left on the approach to the roundabout and keep the signal on until you leave
- d. Signal left just after you pass the exit before the one you will take

**Q. 615**

*Mark one answer*

A disabled driver who has passed the Driving Test using an invalid carriage, wishes to change to a three-wheeler vehicle classified as a motor tricycle (category B1). They should be advised that

- a. they will have to take another driving test
- b. they need only have their driving licence amended
- c. their present licence will cover them and they would not need to take another test
- d. they will have to take an extended driving test

**Q. 616**

*Mark one answer*

You carry a red warning triangle and your vehicle breaks down on an A class road. The Highway Code advises that it should be placed at least

- a. 30 metres (98 feet) before the obstruction
- b. 40 metres (130 feet) before the obstruction
- c. 45 metres (147 feet) before the obstruction
- d. 50 metres (164 feet) before the obstruction

**Q. 617**

*Mark one answer*

You are on a motorway at night. You MUST have your headlights switched on unless

- a. there are vehicles close in front of you
- b. you are travelling below 50 mph
- c. the motorway is lit
- d. your vehicle is broken down on the hard shoulder

**Q. 618**

*Mark one answer*

It is generally recommended that you should check the brake lights on the car you use

- a. daily
- b. weekly
- c. monthly
- d. annually

**Q. 619**

*Mark one answer*

At puffin crossings which light will not show to a driver?

- a. Flashing amber
- b. Red
- c. Steady amber
- d. Green

**Q. 620**

*Mark one answer*

You are driving at 70 mph on a two-lane motorway. You are overtaking vehicles on your left. Another vehicle is approaching fast from behind you. You should

- a. continue to maintain your speed and position
- b. move over when it is safe and let it overtake
- c. increase your speed in order to avoid baulking the other vehicle
- d. flash your brake lights to alert the other driver

**Q. 621**

*Mark one answer*

When would an anti-lock braking system start to work?

- a. After the parking brake has been applied
- b. Whenever the pressure on the brake pedal is applied
- c. Just as the wheels are about to lock
- d. When the normal braking system fails to operate

**Q. 622**

*Mark one answer*

Which of the following will improve fuel consumption?

- a. Short journeys with a cold engine
- b. Planning well ahead
- c. Late and harsh braking
- d. Driving in lower gears

**Q. 623**

*Mark one answer*

You are driving during the hour of darkness. Dipped headlights must be used where street lights are further apart than

- a. 50 metres (164 feet)
- b. 100 metres (328 feet)
- c. 135 metres (441 feet)
- d. 185 metres (605 feet)

**Q. 624**

*Mark one answer*

You are on a fast, open road in good conditions. For safety, the distance between you and the vehicle in front should be

- a. a two-second time gap
- b. one car length
- c. 2 metres (6 feet 6 inches)
- d. two car lengths

**Q. 625**

*Mark one answer*

You are dazzled at night by a vehicle behind you. You should

- a. set your mirror to anti-dazzle
- b. set your mirror to dazzle the other driver
- c. brake sharply to a stop
- d. switch your rear lights on and off

**Q. 626**

*Mark one answer*

You are driving along a country road. You drive through a FORD. AFTER dealing safely with the hazard you should always

- a. check your tyre pressures
- b. switch on your hazard warning lights
- c. accelerate briskly
- d. test your brakes

**Q. 627**

*Mark one answer*

The wearing of a seat belt by a 16-year-old front seat passenger is the responsibility of

- a. the driver
- b. the front seat passenger
- c. the parent/guardian
- d. the owner of the car

**Q. 628**

*Mark one answer*

You are driving through deep water. You should

- a. increase your speed as the water becomes deeper
- b. drive as slowly as possible keeping the engine speed high
- c. use a higher gear to prevent wheel spin
- d. keep your left foot on the footbrake to keep the brakes dry

**Q. 629**

*Mark one answer*

You are planning a long journey. Do you need to plan rest stops?

- a. Yes, you should plan to stop every half an hour
- b. Yes, regular stops help concentration
- c. No, you will be less tired if you get there as soon as possible
- d. No, only fuel stops will be needed

**Q. 630**

*Mark one answer*

What is the right-hand lane used for on a three-lane motorway?

- a. Emergency vehicles only
- b. Overtaking
- c. Vehicles towing trailers
- d. Coaches only

**Q. 632**

*Mark one answer*

Your anti-lock brakes warning light stays on. You should

- a. check the brake fluid level
- b. check the footbrake free play
- c. check that the handbrake is released
- d. have the brakes checked immediately

**Q. 633**

*Mark one answer*

You are parking your car facing uphill with a kerb on your left. You should apply the handbrake and leave your steering wheel turned to the

- a. left with the vehicle in first gear
- b. left with the vehicle in reverse gear
- c. right with the vehicle in first gear
- d. right with the vehicle in reverse gear

**Q. 634**

*Mark one answer*

You are about to drive home. You feel very tired and have a severe headache. You should

- a. wait until you are fit and well before driving
- b. drive home, but take a tablet for headaches
- c. drive home if you can stay awake for the journey
- d. wait for a short time, then drive home slowly

**Q. 635**

*Mark one answer*

A toucan crossing is different from other crossings because

- a. moped riders can use it
- b. it is controlled by a traffic warden
- c. it is controlled by two flashing lights
- d. cyclists can use it

**Q. 638**

*Mark one answer*

A pelican crossing that crosses the road in a STRAIGHT line and has a central island must be treated as

- a. one crossing in daylight only
- b. one complete crossing
- c. two separate crossings
- d. two crossings during darkness

**Q. 639**

*Mark one answer*

What are triangular signs for?

- a. To give warnings
- b. To give information
- c. To give orders
- d. To give directions

**Q. 640**

*Mark one answer*

At a blind junction you must stop

- a. behind the line, then edge forward to see clearly
- b. beyond the line at a point where you can see clearly
- c. only if there is traffic on the main road
- d. only if you are turning to the right

**Q. 641**

*Mark one answer*

You are driving in heavy, slow-moving traffic. You should leave a gap between yourself and the vehicle in front of not less than

- a. the thinking distance for your speed
- b. the braking distance for your speed
- c. the overall stopping distance for your speed
- d. two car lengths

**Q. 642**

*Mark one answer*

To reduce the volume of traffic on the roads you could

- a. use a car with a smaller engine
- b. share a car when possible
- c. drive in a bus lane
- d. travel by car at all times

**Q. 643**

*Mark one answer*

A continuous white line along the left edge of the carriageway indicates

- a. a no parking zone
- b. a no stopping zone
- c. the edge of the carriageway
- d. a cycle lane

**Q. 644**

*Mark one answer*

You are driving down a long steep hill. You suddenly notice your brakes are not working as well as normal. What is the usual cause of this?

- a. The brakes overheating
- b. Air in the brake fluid
- c. Oil on the brakes
- d. Badly adjusted brakes

**Q. 645**

*Mark one answer*

After you leave a motorway following a long period of fast driving your speed is likely to be

- a. higher than you realise
- b. about what you think it is
- c. lower than you realise
- d. easier to judge

**Q. 646**

*Mark one answer*

For what reason may you use the right-hand lane of a motorway?

- a. For keeping out of the way of lorries
- b. For driving at more than 70 mph
- c. For turning right
- d. For overtaking other vehicles

**Q. 647**

*Mark one answer*

Missing out a gear at the appropriate time is

- a. often overlooked and not recommended
- b. harmful to the engine and gearbox
- c. preferable and just as safe as using them one-by-one
- d. regarded as coasting

**Q. 648**

*Mark one answer*

Your vehicle is fitted with a hand-held telephone. To use the telephone you should

- a. reduce your speed
- b. find a safe place to stop
- c. steer the vehicle with one hand
- d. be particularly careful at junctions

**Q. 649**

*Mark one answer*

While driving, you approach road works. You see a temporary maximum speed limit sign. You must

- a. comply with the sign during the working day
- b. comply with the sign at all times
- c. comply with the sign when the lanes are narrow
- d. comply with the sign during the hours of darkness

**Q. 650**

*Mark one answer*

You arrive at the scene of an accident. A pedestrian has a severe bleeding wound on their leg, although it is not broken. What should you do?

- a. Dab the wound to stop bleeding
- b. Keep both legs flat on the ground
- c. Apply firm pressure to the wound
- d. Fetch them a warm drink

**Q. 651**

*Mark one answer*

At toucan crossings, apart from pedestrians you should be aware of

- a. emergency vehicles emerging
- b. buses pulling out
- c. trams crossing in front
- d. cyclists riding across

**Q. 652**

*Mark one answer*

You should never wave people across at pedestrian crossings because

- a. they may not be looking
- b. it is safer for you to carry on
- c. they may not be ready to cross
- d. there may be another vehicle coming

**Q. 654**

*Mark one answer*

A single broken line in the centre of the road with long markings and short gaps means

- a. there is a hazard ahead
- b. lane markings
- c. no stopping on the carriageway
- d. no overtaking

**Q. 655**

*Mark one answer*

While driving, a warning light on your vehicle's instrument panel comes on. You should

- a. continue if the engine sounds alright
- b. hope that it is just a temporary electrical fault
- c. deal with the problem when there is more time
- d. check out the problem quickly and safely

**Q. 656**

*Mark one answer*

Approaching some roundabouts yellow lines are painted across the carriageway to

- a. make drivers aware of their speed after a period of driving at higher speeds
- b. help drivers to judge the distance to the roundabout
- c. indicate a no overtaking area
- d. indicate a no parking area

**Q. 657**

*Mark one answer*

Signs that direct drivers on a motorway usually have

- a. white letters and figures on a blue background
- b. black letters and figures on a white background
- c. white letters and figures on a green background
- d. white letters and figures on a brown background

**Q. 658**

*Mark one answer*

You break down on a motorway. You need to call for help. Why may it be better to use an emergency roadside telephone rather than a mobile phone?

- a. It connects you to a local garage
- b. Using a mobile phone will distract other drivers
- c. It allows easy location by the emergency services
- d. Mobile phones do not work on motorways

**Q. 659**

*Mark one answer*

When stopping the car for any length of time you should

- a. stay in gear and apply the handbrake
- b. apply the handbrake and select neutral
- c. keep your foot on the footbrake with neutral selected
- d. turn the engine off

**Q. 660**

*Mark one answer*

A projection marker is required when a load overhangs the front or rear of the vehicle by more than

- a. 0.5 metre (1.62 feet)
- b. 1 metre (3.25 feet)
- c. 1.5 metres (4.87 feet)
- d. 2 metres (6.5 feet)

**Q. 661**

*Mark one answer*

The MAIN benefit of having four-wheel drive is to improve

- a. road holding
- b. fuel consumption
- c. stopping distances
- d. passenger comfort

**Q. 662**

*Mark one answer*

Provisional licence-holders should not drive a car

- a. over 50 mph
- b. at night
- c. on the motorway
- d. with passengers in rear seats

**Q. 663**

*Mark one answer*

The minimum gap a driver needs to 'reverse park' a car between two vehicles is

- a. one car length
- b. one and a half car lengths
- c. two car lengths
- d. two and a half car lengths

**Q. 664**

*Mark one answer*

You may only enter a yellow box junction when

- a. there are less than two vehicles in front of you
- b. the traffic lights show green
- c. your exit road is clear
- d. you need to turn left

**Q. 665**

*Mark one answer*

A totally deaf person may drive

- a. any type of motor car
- b. only a light motor car
- c. any vehicle fitted with extra rear view mirrors
- d. only with a suitable accompanying driver

**Q. 666**

*Mark one answer*

Can you park on the zigzag lines of a zebra crossing?

- a. No, unless you stay with your car
- b. Yes, in order to drop off a passenger
- c. Yes, if you do not block people from crossing
- d. No, not in any circumstances

**Q. 674***Mark one answer*

You are driving towards a left-hand bend on a country road with no pavements. What dangers should you be aware of?

- a. A vehicle overtaking you
- b. No white lines in the centre of the road
- c. No sign to warn you of the bend
- d. Pedestrians walking towards you

**Q. 675***Mark one answer*

While driving you see a SLOW sign ahead. You should

- a. stop at the sign
- b. slow, but continue
- c. slow to a crawl and continue
- d. stop and look for open farm gates

**Q. 677***Mark one answer*

Another vehicle is taking a long time to overtake you. Which of the following should you do?

- a. Increase your speed to leave them behind
- b. Be prepared to slow down and let them pass
- c. Brake hard and let them pass
- d. Flash your headlights to warn oncoming traffic

**Q. 678***Mark one answer*

A cycle lane is marked by a solid white line. You must not drive or park in it

- a. at any time
- b. during the rush hour
- c. if a cyclist is using it
- d. during its period of operation

**Q. 679***Mark one answer*

What is the maximum speed on a single carriageway road?

- a. 50 mph
- b. 60 mph
- c. 40 mph
- d. 70 mph

**Q. 680***Mark one answer*

A convex mirror makes a following vehicle appear to be

- a. at the correct distance
- b. closer than it really is
- c. further away than it really is
- d. larger than it really is

**Q. 681***Mark one answer*

When a driver is taking a right-hand bend most of the weight of the car is transferred to the

- a. front offside wheel
- b. rear nearside wheel
- c. front nearside wheel
- d. rear offside wheel

**Q. 682***Mark one answer*

Which of the following should you NOT do at the scene of an accident?

- a. Warn other traffic by switching on your hazard warning lights
- b. Call the emergency services immediately
- c. Offer someone a cigarette to calm them down
- d. Ask drivers to switch off their engines

**Q. 683***Mark one answer*

Signals are normally given by direction indicators and

- a. brake lights
- b. sidelights
- c. fog lights
- d. interior lights

**Q. 671***Mark one answer*

How can you use the engine of your vehicle to control your speed?

- a. By changing to a lower gear
- b. By selecting reverse gear
- c. By changing to a higher gear
- d. By selecting neutral

**Q. 672***Mark one answer*

What is the national speed limit on motorways for cars?

- a. 30 mph
- b. 50 mph
- c. 60 mph
- d. 70 mph

**Q. 673***Mark one answer*

Who has priority at an unmarked crossroads?

- a. The larger vehicle
- b. No one has priority
- c. The faster vehicle
- d. The smaller vehicle

**Q. 686***Mark one answer*

Your tyre bursts while you are driving. Which of the following should you do?

- a. Pull on the handbrake
- b. Brake as quickly as possible
- c. Continue on at a normal speed
- d. Hold the steering wheel firmly to keep control

**Q. 688**

*Mark one answer*

When should you especially check the engine oil level?

- a. Before a long journey
- b. When the engine is hot
- c. Early in the morning
- d. Every 6000 miles

**Q. 689**

*Mark one answer*

Which vehicle might have to use a different course to normal at roundabouts?

- a. Sports car
- b. Van
- c. Estate car
- d. Long vehicle

**Q. 691**

*Mark one answer*

You are driving behind a large goods vehicle. It signals left but steers to the right. You should

- a. slow down and let the vehicle turn
- b. drive on, keeping to the left
- c. overtake on the right of it
- d. hold your speed and sound your horn

**Q. 692**

*Mark one answer*

A child under 3 years of age travelling in the front seat of a car must

- a. wear the adult seat belt where there is no appropriate child restraint
- b. wear the appropriate child restraint
- c. be carried by an adult
- d. be in a rearward facing seat

**Q. 693**

*Mark one answer*

On motorways you should never overtake on the left UNLESS

- a. you can see well ahead that the hard shoulder is clear
- b. the traffic in the right-hand lane is signalling right
- c. you warn drivers behind by signalling left
- d. there is a queue of traffic to your right that is moving more slowly

**Q. 694**

*Mark one answer*

How can you reduce the chances of your car being broken into when leaving it unattended?

- a. Take all contents with you
- b. Park near a taxi rank
- c. Place any valuables on the floor
- d. Park near a fire station

**Q. 695**

*Mark one answer*

You are following a cyclist. You wish to turn left just ahead. You should

- a. overtake the cyclist before the junction
- b. pull alongside the cyclist and stay level until after the junction
- c. hold back until the cyclist has passed the junction
- d. go around the cyclist on the junction

**Q. 696**

*Mark one answer*

Where should you take particular care to look out for motorcyclists and cyclists?

- a. On dual carriageways
- b. At junctions
- c. At zebra crossings
- d. On one-way streets

**Q. 697**

*Mark one answer*

When deciding the speed at which you should drive the most important factor affecting your decision is that you

- a. maintain progress at the speed limit
- b. drive at a speed that does not impede other road users
- c. can stop within the distance you can see to be clear
- d. keep up with the traffic in front

**Q. 698**

*Mark one answer*

At a puffin crossing what colour follows the green signal?

- a. Steady red
- b. Flashing amber
- c. Steady amber
- d. Flashing green

**Q. 699**

*Mark one answer*

Where would you see a contra flow bus and cycle lane?

- a. On a dual carriageway
- b. On a roundabout
- c. On an urban motorway
- d. On a one-way street

**Q. 700**

*Mark one answer*

You are driving along a wet road. How can you tell if your vehicle is aquaplaning?

- a. The engine will stall
- b. The engine noise will increase
- c. The steering will feel very heavy
- d. The steering will feel very light

**Q. 701**

*Mark one answer*

Why should you make sure that your indicators are cancelled after turning?

- a. To avoid flattening the battery
- b. To avoid misleading other road users
- c. To avoid dazzling other road users
- d. To avoid damage to the indicator relay

**Q. 702**

*Mark one answer*

Where must you NOT park?

- a. In a one-way street
- b. Near a police station
- c. In a side road
- d. At a bus stop

**Q. 703**

*Mark one answer*

You are driving on a motorway. The traffic ahead is braking sharply because of an accident. How could you warn following traffic?

- a. Briefly use the hazard warning lights
- b. Switch on the hazard warning lights continuously
- c. Briefly use the rear fog lights
- d. Switch on the headlamps continuously

**Q. 704**

*Mark one answer*

You are following a motorcyclist on an uneven road. You should

- a. allow less room so you can be seen in their mirrors
- b. overtake immediately
- c. allow extra room in case they swerve to avoid pot-holes
- d. allow the same room as normal because road surfaces do not affect motorcyclists

**Q. 705**

*Mark one answer*

You take some cough medicine given to you by a friend. What should you do before driving?

- a. Ask your friend if taking the medicine affected their driving
- b. Drink some strong coffee one hour before driving
- c. Check the label to see if the medicine will affect your driving
- d. Drive a short distance to see if the medicine is affecting your driving

**Q. 706**

*Mark one answer*

Someone is waiting to cross at a zebra crossing. They are standing on the pavement. You should normally

- a. go on quickly before they step onto the crossing
- b. stop before you reach the zigzag lines and let them cross
- c. stop, let them cross, wait patiently
- d. ignore them as they are still on the pavement

**Q. 707**

*Mark one answer*

You are signalling to turn right in busy traffic. How would you confirm your intention safely?

- a. Sound the horn
- b. Give an arm signal
- c. Flash your headlights
- d. Position over the centre line

**Q. 708**

*Mark one answer*

When may you NOT overtake on the left?

- a. On a free-flowing motorway or dual carriageway
- b. When the traffic is moving slowly in queues
- c. On a one-way street
- d. When the car in front is signalling to turn right

**Q. 709**

*Mark one answer*

What shape is a STOP sign at a junction?

- a. Circular
- b. Triangular
- c. Rectangular
- d. Octagonal

**Q. 710**

*Mark one answer*

Why are vehicles fitted with rear fog lights?

- a. To be seen when driving at high speed
- b. To use if broken down in a dangerous position
- c. To make them more visible in thick fog
- d. To warn drivers following closely to drop back

**Q. 712**

*Mark one answer*

You are driving in a built-up area. You approach a speed hump. You should

- a. move across to the left-hand side of the road
- b. wait for any pedestrians to cross
- c. slow your vehicle right down
- d. stop and check both pavements

**Q. 713**

*Mark one answer*

How can you use the engine of your vehicle as a brake?

- a. By changing to a lower gear
- b. By selecting reverse gear
- c. By changing to a higher gear
- d. By selecting neutral gear

**Q. 714**

*Mark one answer*

A person starting to drive for the first time may only begin to practice on the public highway if

- a. the provisional application is in the post
- b. they are in receipt of a provisional licence
- c. payment to the DVLA has been cashed
- d. they drive on quiet roads

**Q. 715**

*Mark one answer*

What is the most common cause of skidding?

- a. Worn tyres
- b. Driver error
- c. Other vehicles
- d. Pedestrians

**Q. 716**

*Mark one answer*

You are driving towards a level crossing. What would be the first warning of an approaching train?

- a. Both half barriers down
- b. A steady amber light
- c. One half barrier down
- d. Twin flashing red lights

**Q. 717**

*Mark one answer*

What is the national speed limit for cars and motorcycles on a dual carriageway?

- a. 30 mph
- b. 50 mph
- c. 60 mph
- d. 70 mph

**Q. 718**

*Mark one answer*

In which of these situations should you avoid overtaking?

- a. Just after a bend
- b. In a one-way street
- c. On a 30 mph road
- d. Approaching a dip in the road

**Q. 719**

*Mark one answer*

A blue (or orange) badge displayed on the windscreen of a car indicates

- a. to other road users that the vehicle is being driven by a disabled driver
- b. the holder is entitled to free parking
- c. the holder is entitled to parking concessions
- d. the holder is entitled to cheaper parking

**Q. 720**

*Mark one answer*

'Tailgating' means

- a. using the rear door of a hatchback car
- b. reversing into a parking space
- c. following another vehicle too closely
- d. driving with rear fog lights on

**Q. 721**

*Mark one answer*

When may you cross a double solid white line in the middle of the road?

- a. To pass traffic that is queuing back at a junction
- b. To pass a car signalling to turn left ahead
- c. To pass a road maintenance vehicle travelling at 10 mph or less
- d. To pass a vehicle that is towing a trailer

**Q. 723**

*Mark one answer*

What will reduce the risk of neck injury resulting from a collision?

- a. An air-sprung seat
- b. Anti-lock brakes
- c. A collapsible steering wheel
- d. A properly adjusted head restraint

**Q. 724**

*Mark one answer*

When joining a motorway you should adjust your speed to

- a. a slightly faster rate than the traffic in the left lane
- b. the same speed as the traffic in the left lane
- c. a slightly slower rate than the traffic in the left lane
- d. the same speed that you are currently driving at

**Q. 725**

*Mark one answer*

The left-hand pavement is closed due to street repairs. What should you do?

- a. Watch out for pedestrians walking in the road
- b. Use your right-hand mirror more often
- c. Speed up to get past the road works quicker
- d. Position close to the left-hand kerb

**Q. 726**

*Mark one answer*

You are approaching a hazard. Your first action should be to

- a. reduce speed
- b. alter course
- c. look in the mirrors
- d. give a signal

**Q. 727**

*Mark one answer*

You may wait in a yellow box junction when

- a. oncoming traffic is preventing you from turning right
- b. you are in a queue of traffic turning left
- c. you are in a queue of traffic to go ahead
- d. you are on a roundabout

**Q. 728**

*Mark one answer*

You are going ahead in a one-way street, unless road markings indicate otherwise you should drive in

- a. the left-hand lane
- b. the right-hand lane
- c. the most appropriate lane
- d. any lane

**Q. 729**

*Mark one answer*

You are on a motorway. Red flashing lights appear above your lane only. What should you do?

- Continue in that lane and look for further information
- Move into another lane in good time
- Pull onto the hard shoulder
- Stop and wait for an instruction to proceed

**Q. 730**

*Mark one answer*

You approach a junction. The traffic lights are not working. A police officer, facing you raises his right arm. You should

- turn left only
- turn right only
- stop level with the officer's arm
- stop at the stop line

**Q. 731**

*Mark one answer*

When following a large vehicle you should keep well back because

- it allows you to corner more quickly
- it helps the large vehicle to stop more easily
- it allows the driver to see you in the mirrors
- it helps you to keep out of the wind

**Q. 732**

*Mark one answer*

You are reversing around a corner when you notice a pedestrian walking behind you. What should you do?

- Slow down and wave the pedestrian across
- Continue reversing and steer round the pedestrian
- Stop and give way
- Continue reversing and sound your horn

**Q. 733**

*Mark one answer*

When approaching a hazard your first action should be to

- reduce speed
- change into a lower gear
- look in the mirrors
- increase speed

**Q. 734**

*Mark one answer*

You are towing a trailer with your car on a motorway. What is your maximum speed limit?

- 40 mph
- 50 mph
- 60 mph
- 70 mph

**Q. 735**

*Mark one answer*

Defensive driving does not involve

- awareness and anticipation
- competitive driving
- consideration and courtesy
- forward planning

**Q. 736**

*Mark one answer*

You are driving along a wet road. How can you tell if your vehicle's tyres are losing their grip on the surface?

- The engine will stall
- The steering will feel very heavy
- The engine noise will increase
- The steering will feel very light

**Q. 737**

*Mark one answer*

You are finding it difficult to find a parking place in a busy town. You can see there is space on the zigzag lines of a zebra crossing. Can you park there?

- No, unless you stay with your car
- Yes, in order to drop off a passenger
- Yes, if you do not block people from crossing
- No, not in any circumstances

**Q. 738**

*Mark one answer*

A puffin pedestrian crossing operates an infrared scanner that holds the lights on

- amber for traffic while pedestrians are still crossing
- red for traffic while pedestrians are still crossing
- flashing amber for traffic while pedestrians are still crossing
- green for traffic while pedestrians are crossing

**Q. 739**

*Mark one answer*

You are looking for somewhere to park your vehicle. The area is full EXCEPT for spaces marked 'disabled use'. You can

- use these spaces when elsewhere is full
- park if you stay with your vehicle
- use these spaces, disabled or not
- not park there unless permitted

**Q. 740**

*Mark one answer*

It is essential that tyre pressures are checked regularly. When should this be done?

- After any lengthy journey
- After travelling at high speed
- When tyres are hot
- When tyres are cold

**Q. 741**

*Mark one answer*

In which places would parking cause an obstruction to others?

- In a parking bay
- In a lay-by
- Where the kerb is raised
- Where the kerb has been lowered for wheelchairs

**Q. 742**

*Mark one answer*

You are driving at 60 mph on a dual carriageway. You should leave a safety gap between your vehicle and the next vehicle ahead, a distance of not less than

- 40 metres (130 feet)
- 50 metres (163 feet)
- 60 metres (196 feet)
- 70 metres (230 feet)

**Q. 743**

*Mark one answer*

You are driving on a main road. You intend to turn right into a side road. Just before turning you should

- adjust your interior mirror
- flash your headlamps
- steer over to the left
- check for traffic overtaking on your right

**Q. 744**

*Mark one answer*

You are driving a car fitted with automatic transmission and approaching a very steep downhill gradient. You should

- remain in 'D' (drive) and keep the speed in check with the footbrake
- slow down and use the gear selector to hold it in a low gear
- slow down so that the automatic transmission changes down to a lower gear
- use 'kickdown' to change the vehicle into a lower gear

**Q. 745**

*Mark one answer*

You are driving on a motorway. There are red flashing lights above every lane. You must

- pull onto the hard shoulder
- slow down and watch for further signals
- leave at the next exit
- stop and wait

**Q. 746**

*Mark one answer*

Which of the following may help to deter a thief from stealing your car?

- Always keeping the headlights on
- Fitting reflective glass windows
- Always keeping the interior light on
- Etching the car number on the windows

**Q. 747**

*Mark one answer*

You are turning right at a crossroads. Oncoming traffic is also turning right. It is generally safer to

- turn nearside to nearside
- take the shortest route available to you
- let the traffic turn in front of you
- turn offside to offside

**Q. 748**

*Mark one answer*

You may remove your seat belt when carrying out a manoeuvre that involves

- reversing
- a hill start
- an emergency stop
- driving slowly

**Q. 749**

*Mark one answer*

You are approaching a Zebra crossing where a pedestrian is standing on the footpath with one foot on the crossing. You should assume that the pedestrian is

- intending to cross the road when there is a safe gap
- about to cross the road
- thinking about using the crossing
- unsure whether to cross

**Q. 750***Mark one answer*

You may stop your vehicle on the carriageway where there are double white lines in the centre of the road

- a. to park during the hours of darkness
- b. to park when the nearest line is broken
- c. to set down or pick up passengers
- d. to park during daylight hours

**Q. 751***Mark one answer*

You are joining a motorway. The slip road should be used to

- a. increase your speed to the fastest vehicles in the left-hand lane of the motorway
- b. stop and wait for a gap in the traffic
- c. adjust your speed to a safe gap in order to emerge
- d. increase your speed to the fastest vehicles in the right-hand lane of the motorway

**Q. 753***Mark one answer*

Front fog lights should be used ONLY when

- a. travelling in very light rain
- b. visibility is seriously reduced
- c. daylight is fading
- d. driving after midnight

**Q. 754***Mark one answer*

You arrive at a serious motorcycle accident. The motorcyclist is unconscious. Your main priorities should be to

- a. sweep up any loose debris
- b. make a list of witnesses
- c. check the casualty's breathing
- d. take the numbers of the vehicles involved

**Q. 755***Mark one answer*

You are approaching a red light at a puffin crossing. Pedestrians are on the crossing. The red light will stay on until

- a. you start to edge forward on to the crossing
- b. the pedestrians have reached a safe position
- c. the pedestrians are clear of the front of your vehicle
- d. a driver from the opposite direction reaches the crossing

**Q. 756***Mark one answer*

You have broken down on a motorway. To find the nearest emergency telephone you should always walk

- a. with the traffic flow
- b. facing oncoming traffic
- c. in the direction shown on the marker posts
- d. in the direction of the nearest exit

**Q. 757***Mark one answer*

When driving in fog, which of the following is correct?

- a. Use sidelights only
- b. Use headlights on full beam
- c. Allow more time for your journey
- d. Keep close to the car in front

**Q. 758***Mark one answer*

At a pelican crossing the flashing amber light means you MUST

- a. stop and wait for the green light
- b. stop and wait for the red light
- c. give way to pedestrians waiting to cross
- d. give way to pedestrians already on the crossing

**Q. 760***Mark one answer*

An overtaking vehicle cuts in close in front of you. What should you do?

- a. Accelerate to get closer
- b. Give a long blast on the horn
- c. Drop back to leave the correct separation distance
- d. Flash your headlights several times

**Q. 761***Mark one answer*

During periods of illness your ability to drive may be impaired. You MUST

- a. see your doctor each time before you drive
- b. only take smaller doses of medicines
- c. be medically fit to drive
- d. take all your medicines with you when you drive

**Q. 762***Mark one answer*

You are going through deep water. You should drive

- a. slowly in as high a gear as possible and slipping the clutch if necessary
- b. slowly in first gear keeping the engine speed high and slipping the clutch if necessary
- c. as quickly as possible without slipping the clutch
- d. as quickly as possible in a high gear and slipping the clutch if necessary

**Q. 764***Mark one answer*

While doing the reversing exercise during a driving test the rear nearside tyre gently touches the kerb. The candidate should

- a. drive forward for a short distance, straighten the car and complete the exercise
- b. drive around the corner to the beginning and start again
- c. accept that this would mean an automatic failure
- d. keep going backwards until they mount the kerb and then pull forward

**Q. 765***Mark one answer*

When driving a car fitted with automatic transmission what would you use 'kick down' for?

- a. Cruise control
- b. Quick acceleration
- c. Slow braking
- d. Fuel economy

**Q. 766***Mark one answer*

You are turning right at a mini roundabout, which has central markings. You will normally

- a. drive around them
- b. take the shortest route
- c. drive over them
- d. take the most direct route

**Q. 767***Mark one answer*

After emerging from a junction either turning left or right, you should first

- a. keep well to the left to allow following traffic to overtake
- b. drive away slowly and cancel the signal
- c. check your mirrors to assess the speed and position of following traffic
- d. get use to the speed of the traffic flow

**Q. 768***Mark one answer*

Where an MOT certificate has expired you

- a. may continue using the vehicle providing it passes the MOT test within one calendar month
- b. may drive to and from an MOT test appointment
- c. must arrange for the MOT testing station to collect the car on a trailer
- d. should inform your insurance company

**Q. 769**

*Mark one answer*

You are intending to leave the motorway at the next exit. Before you reach the exit you should normally position your vehicle

- a. in the middle lane
- b. in the left-hand lane
- c. on the hard shoulder
- d. in any lane

**Q. 770**

*Mark one answer*

You are travelling on a motorway. Something, which would cause danger to other road users falls from your vehicle. You should

- a. stop and remove the object from the road
- b. stop and inform the police from the nearest emergency telephone
- c. stop and place a warning triangle on the hard shoulder then call the police
- d. stop at the nearest service area and inform the recovery services

**Q. 771**

*Mark one answer*

You are driving on a three-lane motorway. You may

- a. always overtake on the left if you are within 1 mile of your exit
- b. not overtake on the left at any time
- c. overtake on the left if traffic on the right of you is in a queue moving more slowly than you are
- d. overtake stationary traffic by driving along the hard shoulder

**Q. 773**

*Mark one answer*

You are at a junction controlled by traffic lights. When should you NOT proceed at green?

- a. When pedestrians are waiting to cross
- b. When your exit from the junction is blocked
- c. When you think the lights may be about to change
- d. When you intend to turn right

**Q. 775**

*Mark one answer*

There are three factors in a skid. In order of importance these are

- a. the road conditions – the driver – the vehicle
- b. the driver – the road conditions – the vehicle
- c. the driver – the vehicle – the road conditions
- d. the vehicle – the driver – the road conditions

**Q. 776**

*Mark one answer*

You MUST obey signs giving orders. These signs are mostly in

- a. green rectangles
- b. red triangles
- c. blue rectangles
- d. red circles

**Q. 777**

*Mark one answer*

Who can use a toucan crossing?

- a. Trains
- b. Cyclists
- c. Buses
- d. Trams

**Q. 779**

*Mark one answer*

What must a driver do at a pelican crossing when the amber light is flashing?

- a. Signal the pedestrian to cross
- b. Always wait for the green light before proceeding
- c. Give way to any pedestrians on the crossing
- d. Wait for the red and amber light before proceeding

**Q. 780**

*Mark one answer*

When approaching a right-hand bend you should keep well to the left. Why is this?

- a. To improve your view of the road
- b. To overcome the effect of the road's slope
- c. To let faster traffic from behind overtake
- d. To be positioned safely if you skid

**Q. 782**

*Mark one answer*

You intend to emerge at a 'T' Junction. The DSA publication 'the official driving test' advises that a driver should

- a. look right, left and right
- b. take effective observation before emerging
- c. look, right, left and right or left, right and left depending on the road layout
- d. always apply the handbrake before emerging

**Q. 783**

*Mark one answer*

You have driven through a flood. What is the first thing you should do?

- a. Stop and check the tyres
- b. Stop and dry the brakes
- c. Check your exhaust
- d. Test your brakes

**Q. 784**

*Mark one answer*

When stopping normally you should apply the footbrake

- a. progressively and smoothly, easing off the brake as the car comes to rest
- b. firmly, maintaining the pressure until the car stops
- c. lightly at first, increasing the pressure until stationary
- d. and the clutch together

**Q. 785**

*Mark one answer*

When going straight ahead at a roundabout you should

- a. indicate left before leaving the roundabout
- b. not indicate at any time
- c. indicate right when approaching the roundabout
- d. indicate left when approaching the roundabout

**Q. 786**

*Mark one answer*

The most important consideration when adjusting your seat is that you can

- a. operate the controls easily
- b. fasten the seat belt
- c. reach the controls
- d. start the car

**Q. 787**

*Mark one answer*

You are driving in freezing conditions. What should you do when approaching a sharp bend?

- a. Avoid sudden steering movements
- b. Gently apply your handbrake
- c. Firmly use your footbrake
- d. Coast into the bend

**Q. 789**

*Mark one answer*

You are on a road, which has speed humps. A driver in front is travelling slower than you. You should

- a. sound your horn
- b. overtake as soon as you can
- c. flash your headlights
- d. slow down and stay behind

**Q. 790**

*Mark one answer*

Who is especially in danger of not being seen as you reverse your car?

- a. Motorcyclists
- b. Car drivers
- c. Cyclists
- d. Children

**Q. 791**

*Mark one answer*

A bus lane on your left shows no times of operation. This means it is

- a. not in operation at all
- b. only in operation at peak times
- c. in operation 24 hours a day
- d. only in operation in daylight hours

**Q. 792**

*Mark one answer*

After a breakdown on the motorway you would rejoin the carriageway from the hard shoulder by

- a. always waiting until the motorway is clear then pull back onto the nearside lane
- b. immediately signalling and pulling straight back onto the motorway
- c. building up speed on the hard shoulder and watching for a safe gap and merge with the traffic
- d. waiting until the police slow down the traffic

**Q. 793**

*Mark one answer*

You are driving in conditions of poor visibility. You should

- a. be able to stop within your thinking distance
- b. use sidelights to reduce the glare for other drivers
- c. use the tail lights of other vehicles as a guide
- d. be able to stop well within the distance you can see to be clear

**Q. 794**

*Mark one answer*

The main advantage of a dual braking system on a car is that

- a. it provides more efficient braking
- b. it reduces the likelihood of complete brake failure
- c. each wheel can have its brakes serviced in isolation
- d. it separates the front and back brakes

**Q. 795**

*Mark one answer*

You are driving a vehicle not fitted with anti-lock braking system. When stopping in an emergency you should normally apply the footbrake

- a. after the clutch is depressed
- b. as the clutch is depressed
- c. before the clutch is depressed
- d. at the same time as the handbrake

**Q. 796**

*Mark one answer*

How can you tell when you are driving over black ice?

- a. It is easier to brake
- b. The noise from your tyres sounds louder
- c. You see black ice on the road
- d. Your steering feels light

**Q. 797**

*Mark one answer*

You must not drive if your breath alcohol level is higher than

- a. 20 microgrammes per 100 millilitres
- b. 25 microgrammes per 100 millilitres
- c. 30 microgrammes per 100 millilitres
- d. 35 microgrammes per 100 millilitres

**Q. 798**

*Mark one answer*

Persons suffering from a medical condition requiring treatment by drugs should initially, before driving, consult the

- a. Vehicle Inspectorate Agency
- b. DVLA Medical Branch
- c. Driving Standards Agency
- d. Police

**Q. 800**

*Mark one answer*

The Highway Code advises that on areas of the road painted with white diagonal stripes surrounded by a broken white line, you should

- a. not enter the area, even though you can see that it is safe to do so
- b. not enter the area until the diagonal stripes cease
- c. not enter the area unless you can see it is safe to do so
- d. use the area to overtake large vehicles

**Q. 801**

*Mark one answer*

Tyre pressures should be checked

- a. every time the car is driven
- b. at least once a week
- c. at least once a month
- d. only when the tyres look soft

**Q. 802**

*Mark one answer*

When leaving a mini-roundabout you should

- a. omit a left signal to avoid confusing traffic
- b. signal left when appropriate to do so
- c. always give a left signal and check the mirror
- d. check the mirrors and give a right signal

**Q. 803**

*Mark one answer*

Which age group of drivers is most likely to be involved in a road accident?

- a. 36 to 45-year-olds
- b. 55-year-olds and over
- c. 46 to 55-year-olds
- d. 17 to 25-year-olds

**Q. 804**

*Mark one answer*

The phrase "thinking distance" means the distance travelled between

- a. recognising the need to brake and beginning to brake
- b. recognising the need to brake and stopping
- c. beginning to brake and stopping
- d. thinking about stopping and actually stopping

**Q. 805**

*Mark one answer*

A roof rack fitted to your car will

- a. reduce fuel consumption
- b. improve road handling
- c. make your car go faster
- d. increase fuel consumption

**Q. 806**

*Mark one answer*

You meet an obstruction on your side of the road. You should

- a. carry on, you have priority
- b. give way to oncoming traffic
- c. wave oncoming vehicles through
- d. accelerate to get past first

**Q. 807**

*Mark one answer*

You intend to turn left at traffic lights. Just before turning you should

- a. check your right-hand mirror
- b. move closer to the vehicle in front
- c. straddle the lanes
- d. check for bicycles on your left

**Q. 808**

*Mark one answer*

On a foggy day you have to unavoidably park your car on the road. You should

- a. leave your headlights on
- b. leave your fog lights on
- c. leave your sidelights on
- d. leave your hazard lights on

## Q. 809

Mark one answer

You are travelling at the legal speed limit. A vehicle comes up quickly behind, flashing its headlights. You should

- accelerate to make a gap behind you
- touch the brakes sharply to show your brake lights
- maintain your speed to prevent the vehicle from overtaking
- allow the vehicle to overtake

## Q. 810

Mark one answer

What is the shortest stopping distance at 70 mph?

- 53 metres (175 feet)
- 60 metres (197 feet)
- 73 metres (240 feet)
- 96 metres (315 feet)

## Q. 811

Mark one answer

A candidate on a driving test can be accompanied by

- anyone aged 16 or over
- only a driving instructor
- no other person
- only an interpreter

## Q. 813

Mark one answer

What can cause heavy steering?

- Driving on ice
- Badly worn brakes
- Over-inflated tyres
- Under-inflated tyres

## Q. 814

Mark one answer

You must not sound the horn when your vehicle is moving in a built-up area between the hours of

- 11.30 p.m. to 7.00 a.m.
- 11.00 p.m. to 7.30 a.m.
- 11.30 p.m. to 7.30 a.m.
- 11.00 p.m. to 7.00 a.m.

## Q. 815

Mark one answer

You start to feel tired while driving. What should you do?

- Increase your speed slightly
- Decrease your speed slightly
- Find a less busy route
- Pull over at a safe place to rest

## Q. 816

Mark one answer

You are turning left at a junction. Pedestrians have started to cross the road. You should

- go on, giving them plenty of room
- stop and wave at them to cross
- blow your horn and proceed
- give way to them

## Q. 818

Mark one answer

You are about to return home from holiday when you become ill. A doctor prescribes drugs, which are likely to affect your driving. You should

- drive only if someone is with you
- avoid driving on motorways
- not drive yourself
- never drive at more than 30 mph

## Q. 819

Mark one answer

Your vehicle has broken down on an automatic railway level crossing. What should you do FIRST?

- Get everyone out of the vehicle and clear of the crossing
- Phone the signal operator so that trains can be stopped
- Walk along the track to give warning to any approaching trains
- Try to push the vehicle clear of the crossing as soon as possible

## Q. 820

Mark one answer

A driver will be disqualified if they accumulate more than 12 penalty points in a period of

- 6 months
- 3 years
- 4 years
- 5 years

## Q. 821

Mark one answer

A red traffic light means

- you should stop unless turning left
- stop, if you are able to brake safely
- you must stop and wait behind the stop line
- proceed with caution

## Q. 822

Mark one answer

You are driving a car fitted with left-hand drive. You need to

- make full use of the mirrors
- give signals earlier
- keep further to the right than normal
- keep further to the left than normal

## Q. 823

Mark one answer

You see an amber traffic light ahead. Which light(s) will come on next?

- Red alone
- Red and amber together
- Green and amber together
- Green alone

## Q. 824

Mark one answer
